

# Adhesive foam for facade insulation boards XPS EPS

## Boramax 750ml

Brand	BORAMAX
Manufacturer	
Country of manufacture	Poland
Weight	0.90 kg
Product Code	KL-B-ST-750
EAN	5901738720121
SKU	000050
Advice IBB	
IBB ID	9103

### Product specification

Manufacturer	BORAMAX	Unit	pcs
Brand	boramax	EAN	5901738720121
Country of manufacture	Poland		

DO STYROFOAM XPS-EPS DP ADHESIVE - Low-pressure, one-component polyurethane adhesive with a pistol applicator, designed for gluing polystyrene boards in building insulation systems using the BSO method, and XPS and EPS boards when insulating foundations and ground-level parts of buildings, basements, etc. It is easy and convenient to use, enables quick execution of works related to insulation (initial hardening after 2 hours, full hardening after 24 hours).

#### PROPERTIES

- Excellent adhesion to concrete, ceramic and wooden substrates as well as to PVC and all kinds of polystyrene, plasters and substrates with a bitumen coating, roofing felt and asphalt insulating masses. 6x faster application than cement adhesive
- 25 x warmer insulator than glue
- Fast and strong bonding
- Usable down to -5c!
- Fast drying time

#### APPLICATION

- Recommended for plasterboards, OSB boards, fiber cement boards, polystyrene, decorative boards, wood-based boards, plastic boards and metal sheets
- Fixing of polystyrene boards when insulating external walls of buildings with the jointless method (ETICS), polystyrene coffers, wall panels, installation of window sills
- Filling gaps in thermal insulation and basement insulation systems (foundations) with the use of extruded polystyrene (XPS) and expanded polystyrene (EPS) boards.

**TECHNICAL PARAMETERS**

Capacity - 750ml

Quantity in a carton - 12 pcs.

Quantity on a pallet - 768 pcs
