

Thermostatic radiator valve HBV-W-L white left

Manufacturer	
Weight	0.50 kg
Product Code	HBV-W-L
SKU	GRZ_3792
IBB ID	10525

Product specification

Manufacturer	Heat & Style-Grzejniki	Unit	pcs
Colour	white	Valve shape	left axial
Colour	white	Country of origin	China
Purpose of the valve	water-electric heaters	Power 55/45/20 [W]	151
Contents of the package	<p>pex16x2 pipe fittings. In the case of other pipes, fittings must be purchased separately., shut-off valve, thermostatic head, thermostatic valve</p>		

HBV-W-L thermostatic radiator valve, white, left

A thermostatic valve allows you to easily connect an electric heater to the radiator.

The set consists of two tees integrated with valves (thermostatic and return).

The heater can be connected through any of the two tees.

The kit allows you to install the heater not only in traditional bathroom radiators with a wide bottom connection, but also in radiators with a connection in vertical collectors with a spacing of 50 mm (e.g. Elche, Uncommon, Nameless, Pop Star, Warp S, Astro radiators).

Left axial figure, white.
