

# Cavity drain membrane WYKAMOL CM8 HEAVY DUTY 2.4x20m

Manufacturer	
Weight	24.00 kg
Product Code	CM8HD2.4X20
SKU	001310
IBB ID	11153

## Product specification

Manufacturer

**WYKAMOL**

Unit

**roll**

CM8 HD is an 8mm studded high density membrane suitable for type C waterproofing and delivering a grade 3 environment to BS8102:2009 and NHBC chapter 5.4.

We recommend using the HD version on our Danopren insulated spacer and also in commercial areas where a more impact resistant membrane may be needed.

CM8 HD is also an excellent Radon barrier and has passed all the relevant tests for resistance to this Gas.

### ADVANTAGES

- Creates dry, habitable living space in areas previously suffering from damp/wet conditions.
- Waterproof, salt inhibiting, root and contaminate resistant.
- Quick to install - minimal preparation needed to wall surfaces.
- Easily cut down using a sharp blade.
- No drying out process - redecoration can occur immediately.
- Little or no damage to the existing structure.
- Low and high temperature tolerance.
- Part of a type C cavity drain membrane system in line with BS8102:2009.
- Clear for easy application and fixing of wykamol plugs.
- Ideal radon barrier membrane
- Heavier duty impact resistance and high loadings on floors The Wykamol range of cavity drain membranes are high quality, structural waterproofing materials, with a choice of stud height for different drainage capacities and applications.
