

Nano-silicone render AZURO PREMIUM 1.5 mm white 25kg

Manufacturer	
Country of manufacture	Poland
Weight	25.00 kg
Product Code	AZURO NANO
EAN	5908249170872
SKU	001426
Advice IBB	
IBB ID	11267

Product specification

Manufacturer	SEMPRE	Unit	bucket
Colour	white	EAN	5908249170872
Country of manufacture	Poland	Coverage	2,3 kg/m2

Nano-Silicone render AZURO PREMIUM dotted 1.5 mm white 25kg

full and scratched structure, for mechanical spraying Ready-to-use silicone plaster with nano silicon, intended for decorative and protective coatings in the SEMPER TERM ST, SEMPER building insulation system TERM WM and for use outside buildings on typical construction substrates, also covered with acrylic paints. The special formula with silicon nanoparticles strengthens the combination of the plaster binder containing silicone resins, inhibits the growth of microorganisms, mold and bacteria, increases vapor permeability, giving freedom to "breathe" material, reduces unsightly, dark stains after rainfall, increases the hydrophobicity of the coating, thanks to which the surfaces can be easily washed with water, extends the life of the product and extends its attractive appearance to several years, thus reducing the costs of renovation painting or painting, increases full resistance to: high temperature amplitudes, UV radiation, microcracks and scratches, moisture.

Characteristics:

- easy to apply and invoice with a trowel
- a large selection of granulations
- increased resistance to algae and fungi
- high hydrophobicity
- high water vapor permeability
- high flexibility after drying
- high color stability
- environmentally friendly
- contains nano silicon
- high resistance to the development of microorganisms, mold
