		Aerator type	coin-slot
Ceramic cartridge size	35 mm	Adjustment range from [mm]	700
Connection thread	m8	Flow class [l/min]	z - 4-9 l/min
Material	ZnAl	Connection diameter	50
Thread type	external		

The dual-function aerator aerates the water stream and, above all, significantly reduces water consumption. It has two operating modes - narrower and rain mode, which is useful, for example, when rinsing dishes or washing fruit. The change is quick and easy, just pull the end of the collar down.
