The shower faucet is a very important element of the fittings that should be taken into account when equipping the bathroom. Our model will suit both minimalist, modern and more traditional interiors. We also guarantee the highest parameters of materials and finishing thanks to triple Deante quality control. The built-in mixer will ensure optimal water temperature. The product is mounted on the wall, which gives great arrangement possibilities and additional space. The preparation is intended for faucets in any finish. Thanks to its special formula, it does not leave streaks, scratches or matting on the cleaned products. The preparation is perfect for the care of such demanding black fittings, maintaining its original appearance for many years.
