| SKU | 001503 |
| IBB ID | 11344 |

Product specification

| | | | |
|----------------------------|--------------------------|------------------------------|-------|
| Manufacturer | DEANTE | Unit | pcs |
| EAN | 5908212095218 | Series | joko |
| Additional characteristics | cool-out | Frame height adjustment [mm] | 200 |
| Aerator size | M28 | Adjustable spacing | Yes |
| Aerator type | coin-slot | Ceramic cartridge size | 35 mm |
| Adjustment range from [mm] | 700 | Connection thread | m8 |
| Flow class [l/min] | s - 15-19.9 l/min | Material | ABS |
| Mixer type | two-handle. thermostatic | Connection diameter | 50 |
| Shape | square | | |

The system of adjustable bar mounts definitely facilitates installation. This is an excellent solution also when replacing an older model with a new one. Regardless of the previous span, you can use existing holes. This eliminates the need to mask unused holes and drill new ones. The effect of the bar replacement is quick, hassle-free and stress-free.

Backflow valves guarantee the correct operation of the fittings, and in thermostatic taps they also prevent water mixing in the pipes.

The use of dedicated agents means that the surfaces do not deteriorate and remain smooth for a long time, facilitating daily cleaning. A specially selected composition removes the most common dirt very effectively. On the other hand, the preparations are mild for a given type of surface (metal, granite, ceramics and others), without entering into chemical reactions with them. The preparations are biodegradable and thus harmless for the environment. With Deante cleaning products, keeping things in order will be extremely easy!
