

## Shower mixer, self-closing, concealed Press

Manufacturer	
Weight	0.56 kg
Product Code	BBH_048L
EAN	5908212081914
SKU	001676
IBB ID	11517

### Product specification

Manufacturer	DEANTE	Unit	pcs
EAN	5908212081914	Additional characteristics	cool-out
Acoustic group [dB]	II (20 < x ≤ 30)	Frame height adjustment [mm]	200
Aerator size	M28	Aerator type	coin-slot
Ceramic cartridge size	35 mm	Adjustment range from [mm]	700
Connection thread	m8	Flow class [l/min]	s - 15.1-19.8 l/min
Material	ZnAl	Mixer type	press
Installation method	flush-mounted	Connection diameter	50

Press taps close the water flow automatically after a specified time from switching on. The solution is intended in particular for use in public spaces, restaurants, hotels or gas stations, i.e. wherever we want to reduce wasting water.

The main advantages of concealed mounting are aesthetic appearance, ease of keeping the bathroom clean and hiding installation components, which are also not exposed to mechanical damage. Solutions of this type will also work in small bathrooms, where every centimeter counts. When installing a concealed system, only decorative wall-mounted elements remain visible, and the bathroom is functional, effective and fits in a fashionable minimalist style.
