

Kitchen tap, with water filter connection Aster

Manufacturer	
Weight	2.05 kg
Product Code	BCA_B64M
EAN	5908212061213
SKU	001695
IBB ID	11599

Product specification

Manufacturer	DEANTE	Unit	pcs
EAN	5908212061213	Series	aster
Additional characteristics	wężyk 1/4' do podłączenia filtra dł. 100 cm i szybkozłączka w zestawie	Acoustic group [dB]	II (20 < x ≤ 30)
		Frame height adjustment [mm]	200
Aerator size	m24	Aerator type	other
Ceramic cartridge size	35 mm	Adjustment range from [mm]	700
Connection thread	m10	Finish	black. chrome
Flow class [l/min]	z - 4-9 l/min	Installation thread	3/8'
Material	brass	Mixer type	single-lever. mixed
Installation method	standing	Range of tap spout [mm]	206
Spout type	rotary	Connection diameter	50
Total height of the battery [mm]	396		

The mixer body is made of the highest quality brass

The mixer is equipped with a stream aerator

The mounting sleeve facilitates the installation of the mixer

45 cm connection hoses included

Z flow class (4-9 l/min) allowing for water consumption reduction

Tap with connection to a water filter

Only the best materials, the quality of which has been confirmed by laboratory tests

Durable hose ends made of brass

The offer includes a cleaning agent for fixtures in all colors

The tap is equipped with an aerator, thanks to which the water stream is perfectly aerated and soft. This solution improves the comfort of use, while limiting water consumption, which translates into lower utility bills. You are also contributing to taking care of our planet.

The flow class with means that within a minute the tap flows between 4 and 9 liters of water. The stream is also comfortable to use, delicate and soft. This solution is ideal wherever you pay attention to ecological and economic responsibility - which also means your home!

The tap with connecting to the water filter is the perfect solution for everyone who appreciates comfort and constant access to fresh water. The tap has a switch that allows you to choose a source of flowing water (filtered water or water from the water main). In this way, you limit the purchase of bottled water, plastic consumption and the cost of garbage disposal, while taking care of the natural environment! The tap has a separate filtered water circuit so that it does not mix with "tap water". This solution requires prior installation of a water filtering system.
