

## Washbasin tap, contactless, with temperature control - 230/6V Sensor

Manufacturer	
Weight	2.06 kg
Product Code	BCH_029V
EAN	5908212053997
SKU	001698
IBB ID	11602

### Product specification

Manufacturer	DEANTE	Unit	pcs
EAN	5908212053997	Additional characteristics	cool-out
Acoustic group [dB]	II (20 < x ≤ 30)	Frame height adjustment [mm]	200
Aerator size	m24	Aerator type	honeycomb
Ceramic cartridge size	35 mm	Adjustment range from [mm]	700
Connection thread	m10	Flow class [l/min]	z - 4-9 l/min
Installation thread	1/2"	Material	brass
Mixer type	sensor. mixer	Installation method	standing
Range of tap spout [mm]	114	Spout type	still
Connection diameter	50	Total height of the battery [mm]	150

The sensor tap is primarily characterized by contactless operation. To run it, just bring your hand closer to the sensor. The flow is closed automatically after the hand is moved away. This solution ensures low water consumption, comfort of use and hygiene. When using them, you do not touch the handle, which makes it much easier to keep the product clean.

The tap is equipped with an aerator, thanks to which the water stream is perfectly aerated and soft. This solution improves the comfort of use, while limiting water consumption, which translates into lower utility bills. You are also contributing to taking care of our planet.

The flow class with means that within a minute the tap flows between 4 and 9 liters of water. The stream is also comfortable to use, delicate and soft. This solution is ideal wherever you pay attention to ecological and economic responsibility - which also means your home!

Backflow valves guarantee the correct operation of the fittings, and in thermostatic taps they also prevent water mixing in the pipes.
