

Kitchen tap with water filter connection

Manufacturer	
Weight	2.34 kg
Product Code	BCH_N64M
EAN	5908212089422
SKU	001703
IBB ID	11691

Product specification

Manufacturer	DEANTE	Unit	pcs
EAN	5908212089422	Additional characteristics	cool-out
Acoustic group [dB]	II (20 < x ≤ 30)	Frame height adjustment [mm]	200
Aerator size	m22	Aerator type	other
Ceramic cartridge size	35 mm	Adjustment range from [mm]	700
Connection thread	m10	Finish	nero
Flow class [l/min]	a - 9.1-15 l/min	Installation thread	3/8"
Material	brass	Mixer type	mixer. for connecting the water filter
Installation method	standing	Range of tap spout [mm]	180
Spout type	rotary	Connection diameter	50
Total height of the battery [mm]	344		

The mixer body is made of the highest quality brass

The mixer is equipped with a stream aerator

The mounting sleeve facilitates the installation of the mixer

45 cm connection hoses included

Innovative, durable and easy to clean Nero coating

Tap with connection to a water filter

Only the best materials, the quality of which has been confirmed by laboratory tests

Durable hose ends made of brass

The offer includes a cleaning agent for fixtures in all colors

The tap is equipped with an aerator, thanks to which the water stream is perfectly aerated and soft. This solution improves the comfort of use, while limiting water consumption, which translates into lower utility bills. You are also contributing to taking care of our planet.

The black, matte surface of Deante Nero fittings is the result of the use of innovative technology. Its special properties mean that there are no fingerprints on the tap. The surface structure is durable and easy to clean. To remove any dirt, just wipe the tap with a soft cloth. What's more, arranging the interior using a deep black fittings makes the colors surrounding it brighter, fuller and more expressive.

The tap with connecting to the water filter is the perfect solution for everyone who appreciates comfort and constant access to fresh water. The tap has a switch that allows you to choose a source of flowing water (filtered water or water from the water main). In this way, you limit the purchase of bottled water, plastic consumption and the cost of garbage disposal, while taking care of the natural environment! The tap has a separate filtered water circuit so that it does not mix with "tap water". This solution requires prior installation of a water filtering system.
