

Kitchen tap, with pull-out spout Gerbera

Manufacturer	
Weight	2.53 kg
Product Code	BGB_072M
EAN	5908212081938
SKU	001766
IBB ID	12056

Product specification

Manufacturer	DEANTE	Unit	pcs
EAN	5908212081938	Additional characteristics	cool-out
Acoustic group [dB]	I (x ≤ 20)	Frame height adjustment [mm]	200
Aerator size	m18	Aerator type	honeycomb
Ceramic cartridge size	25 mm	Adjustment range from [mm]	700
Connection thread	m8	Flow class [l/min]	z - 4-9 l/min
Installation thread	3/8"	Material	stainless steel. ZnAl
Mixer type	single-lever. mixed	Installation method	standing
Range of tap spout [mm]	212	Spout type	rotary. elastic
Connection diameter	50	Total height of the battery [mm]	477

The tap is equipped with an aerator, thanks to which the water stream is perfectly aerated and soft. This solution improves the comfort of use, while limiting water consumption, which translates into lower utility bills. You are also contributing to taking care of our planet.

The flow class with means that within a minute the tap flows between 4 and 9 liters of water. The stream is also comfortable to use, delicate and soft. This solution is ideal wherever you pay attention to ecological and economic responsibility - which also means your home!

The tap with a flexible spout is an extremely practical and convenient solution in every kitchen. Thanks to it, you can easily keep the sink clean, fill tall dishes with water, rinse fruit and vegetables and perform a number of other kitchen tasks within the sink.

The tap has a 2-function spout, thanks to which you can change the stream between aerated and spray. This latter, perfectly distributed stream will work when rinsing vegetables, fruits or already washed dishes.

The tap with a pull-out spout is an extremely practical and convenient solution in every kitchen. Thanks to it, you can easily keep the sink clean, fill high dishes with water, rinse fruit and vegetables and perform a number of small kitchen tasks within the sink. You will forget about the problems with washing large oven sheets or shelves from the fridge, and thus common accidental flooding of the countertop next to it. Now you have full control over the water in the kitchen!
