Material	ZnAl	Mixer type	single-lever. mixed
Installation method	flush-mounted	Connection diameter	50
Total height of the battery [mm]	84		

Delicate, minimalist, and above all beautiful and intriguing - this is the Arnika line, inspired by the Danish hygge style. The Arnika series combines functionality and inspiration with gentle shapes found in nature.

This perfect form is available in many finishes: classic chrome, majestic gold, noble black and intriguing deep gray - titanium.

Discreet and at the same time a very ergonomic function switch that allows you to change the flow of the water stream even at low pressure.

The main advantages of concealed mounting are aesthetic appearance, ease of keeping the bathroom clean and hiding installation components, which are also not exposed to mechanical damage. Solutions of this type will also work in small bathrooms, where every centimeter counts. When installing a concealed system, only decorative wall-mounted elements remain visible, and the bathroom is functional, effective and fits in a fashionable minimalist style.

The black, matte surface of Deante Nero fittings is the result of the use of innovative technology. Its special properties mean that there are no fingerprints on the tap. The surface structure is durable and easy to clean. To remove any dirt, just wipe the tap with a soft cloth. What's more, arranging the interior using a deep black fittings makes the colors surrounding it brighter, fuller and more expressive.
