

Washbasin tap, contactless, with temperature control - 230/6V Hiacynt

Manufacturer	
Weight	2.80 kg
Product Code	BQH_029V
EAN	5908212089385
SKU	001832
IBB ID	12567

Product specification

Manufacturer	DEANTE	Unit	pcs
EAN	5908212089385	Additional characteristics	cool-out
Acoustic group [dB]	I (x ≤ 20)	Frame height adjustment [mm]	200
Aerator size	m24	Aerator type	flat, movable
Ceramic cartridge size	35 mm	Adjustment range from [mm]	700
Connection thread	m10. 3/8'	Flow class [l/min]	z - 4-9 l/min
Installation thread	1/2'	Material	brass
Mixer type	sensor	Installation method	standing
Range of tap spout [mm]	112	Spout type	still
Connection diameter	50	Total height of the battery [mm]	141

Washbasin tap, contactless, with temperature control - 230/6V

The mixer body is made of the highest quality brass

Contactless tap with a motion sensor

The mixer is equipped with a stream aerator

The movable aerator allows you to direct the water stream

45 cm connection hoses included

Z flow class (4-9 l/min) allowing for water consumption reduction

The mixer is equipped with non-return valves so that the mixed water does not flow back into the installation

Modern design with a hint of timelessness

Only the best materials, the quality of which has been confirmed by laboratory tests

The mixer is manufactured in Poland, with the utmost care for product quality.

The offer includes a cleaning agent for fixtures in all colors

Contactless tap with a motion sensor

The sensor tap is primarily characterized by contactless operation. To run it, just bring your hand closer to the sensor. The flow is closed automatically after the hand is moved away. This solution ensures low water consumption, comfort of use and hygiene. When using them, you do not touch the handle, which makes it much easier to keep the product clean.

The mixer is equipped with a stream aerator

The tap is equipped with an aerator, thanks to which the water stream is perfectly aerated and soft. This solution improves the comfort of use, while limiting water consumption, which translates into lower utility bills. You are also contributing to taking care of our planet.

The movable aerator allows you to direct the water stream

The movable aerator allows you to direct the stream of water and aerates it at the same time. This translates into less use of this valuable resource, while maintaining the comfort of using the mixer.

Z flow class (4-9 l/min) allowing for water consumption reduction

The flow class with means that within a minute the tap flows between 4 and 9 liters of water. The stream is also comfortable to use, delicate and soft. This solution is ideal wherever you pay attention to ecological and economic responsibility - which also means your home!

The mixer is equipped with non-return valves so that the mixed water does not flow back into the installation

Backflow valves guarantee the correct operation of the fittings, and in thermostatic taps they also prevent water mixing in the pipes.

Modern design with a hint of timelessness

Hiacynt is an original collection designed with attention to detail. The author of the series, Małgorzata Płoskońska, managed to combine modern design with a hint of timelessness. Hiacynt mixers are like elegant and subtle jewelry for the home, whose shapes will add splendor to bathroom interiors. The series is characterized by a dynamic form - soaring arches balanced with straight planes.

The offer includes a cleaning agent for fixtures in all colors

The agent is intended for taps in all finishes. Thanks to its special formula, it does not leave streaks, scratches or matting on the cleaned products. The preparation is perfect for the care of demanding black fittings, preserving its original appearance for many years.
