

Washbasin tap, concealed Temisto

Manufacturer	
Weight	1.40 kg
Product Code	BQT_M54D
EAN	5908212076071
SKU	001865
IBB ID	12834

Product specification

Manufacturer	DEANTE	Unit	pcs
EAN	5908212076071	Additional characteristics	cool-out
Acoustic group [dB]	I (x ≤ 20)	Frame height adjustment [mm]	200
Aerator size	m18.5	Aerator type	floating honeycomb
Ceramic cartridge size	1/2'	Adjustment range from [mm]	700
Connection thread	m8	Flow class [l/min]	a - 9.1-15 l/min
Material	brass	Mixer type	two-handle. mixer
Installation method	flush-mounted	Range of tap spout [mm]	193
Spout type	still	Connection diameter	50

Washbasin tap, concealed

The mixer body is made of the highest quality brass

The mixer is equipped with a stream aerator

The movable aerator allows you to direct the water stream

Flush-mounted installation ensures the aesthetics of the bathroom

Innovative and durable brass color coating

Hand-crafted elements

Design that connects the past with the future

Only the best materials, the quality of which has been confirmed by laboratory tests

The offer includes a cleaning agent for fixtures in all colors

The mixer is equipped with a stream aerator

The tap is equipped with an aerator, thanks to which the water stream is perfectly aerated and soft. This solution improves the comfort of use, while limiting water consumption, which translates into lower utility bills. You are also contributing to taking care of our planet.

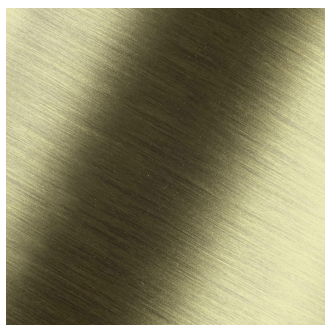

The movable aerator allows you to direct the water stream

The movable aerator allows you to direct the stream of water and aerates it at the same time. This translates into less use of this valuable resource, while maintaining the comfort of using the mixer.

Flush-mounted installation ensures the aesthetics of the bathroom

The main advantages of concealed mounting are aesthetic appearance, ease of keeping the bathroom clean and hiding installation components, which are also not exposed to mechanical damage. Solutions of this type will also work in small bathrooms, where every centimeter counts. When installing a concealed system, only decorative wall-mounted elements remain visible, and the bathroom is functional, effective and fits in a fashionable minimalist style.

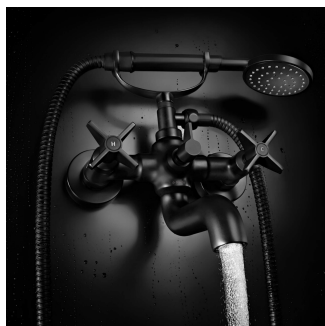

Innovative and durable brass color coating

The brass, matte-gold surface of Deante fittings is the result of the use of innovative technology. It is a combination of retro style and modernity. The surface structure is durable and easy to clean, because the fingerprints do not remain on the brass coating. The brass gives the room an unusual character and unique appearance.

Hand-crafted elements

In the Temisto collection, individual elements are developed by hand, with care and commitment. These mixers are unique, utilitarian works of art.

Design that connects the past with the future

The mixer collection combines style with modern technology. The taps and rain shower in this series refer to the retro climate, attract attention with stylized knobs, and at the same time boast a very modern covering technology.

The offer includes a cleaning agent for fixtures in all colors

The agent is intended for taps in all finishes. Thanks to its special formula, it does not leave streaks, scratches or matting on the cleaned products. The preparation is perfect for the care of demanding black fittings, preserving its original appearance for many years.
