The tap is equipped with an aerator, thanks to which the water stream is perfectly aerated and soft. This solution improves the comfort of use, while limiting water consumption, which translates into lower utility bills. You are also contributing to taking care of our planet.

The movable aerator allows you to direct the stream of water and aerates it at the same time. This translates into less use of this valuable resource, while maintaining the comfort of using the mixer.

The black, matte surface of Deante Nero fittings is the result of the use of innovative technology. Its special properties mean that there are no fingerprints on the tap. The surface structure is durable and easy to clean. To remove any dirt, just wipe the tap with a soft cloth. What's more, arranging the interior using a deep black fittings makes the colors surrounding it brighter, fuller and more expressive.

The Click-Clack plug is a convenient and very elegant way of closing the drain. Unlike manual plugs with a cable, it is not connected to the tap. To close or open the drain, just press the plug with your finger. Simple? Simple as Click-Clack! When choosing a tap with a click-clack plug, remember to pay attention to whether you have a sink with or without an overflow and whether the plug you chose is suitable.

In the Temisto collection, individual elements are developed by hand, with care and commitment. These mixers are unique, utilitarian works of

art.

The mixer collection combines style with modern technology. The taps and rain shower in this series refer to the retro climate, attract attention with stylized knobs, and at the same time boast a very modern covering technology.
