

# Concealed BOX body, thermostatic, with shower switch Box

Manufacturer	
Weight	1.42 kg
Product Code	BXY_M44T
EAN	5908212092224
SKU	001882
IBB ID	12957

## Product specification

Manufacturer	DEANTE	Unit	pcs
EAN	5908212092224	Additional characteristics	cool-out
Acoustic group [dB]	I (x ≤ 20)	Frame height adjustment [mm]	200
Aerator size	M28	Aerator type	coin-slot
Ceramic cartridge size	35 mm	Adjustment range from [mm]	700
Connection thread	m8	Flow class [l/min]	s - 15.1-19.8 l/min
Material	ZnAl	Mixer type	body of the flush-mounted box. thermostatic
Installation method	flush-mounted	Connection diameter	50
Temperature lock	Yes		

The thermostatic mixer ensures an easy and precise setting of a constant, pleasant water temperature. Using it is extremely simple. Just set the knob to the desired water temperature. A special lock protects against accidental setting of a temperature higher than a comfortable 38°C and, as a consequence, protects against burns. This solution will work especially where the youngest or seniors use the spray. It is therefore comfortable and safe.

You gain access to the internal mechanism of Box, even after the installation is complete. The lockable casing protects the mixer mechanism during construction works.

All elements are made of high-quality materials: brass with the best properties and high-quality plastic.

The universal construction of the BOX allows you to replace the classic mixer tap with a thermostatic one at any time and vice versa. In the future, you can easily change the arrangement by replacing external elements.

You can easily match bathroom faucets from the same series and complementary products to the external components of the BOX - rosettes and levers.

The use of dedicated agents means that the surfaces do not deteriorate and remain smooth for for a long time, facilitating another cleaning. A specially selected composition removes the most common dirt very effectively. On the other hand, the preparations are delicate for a given type

of surface (metal, granite, ceramics and others), without entering into chemical reactions with them. The preparations are biodegradable and thus harmless for the environment. With Deante cleaning products, keeping things in order will be very easy!
