| SKU | 001888 |
| IBB ID | 12963 |

Product specification

| | | | |
|------------------------------|---------------|----------------------------|--------------------------|
| Manufacturer | DEANTE | Unit | pcs |
| EAN | 5908212084670 | Additional characteristics | cool-out |
| Frame height adjustment [mm] | 200 | Aerator size | M28 |
| | | Aerator type | coin-slot |
| Ceramic cartridge size | 35 mm | Adjustment range from [mm] | 700 |
| Connection thread | m8 | Flow class [l/min] | z - 4-9 l/min |
| Material | ZnAl | Mixer type | flush-mounted box. mixer |
| Installation method | flush-mounted | Connection diameter | 50 |

The black, matte surface of Deante Nero fittings is the result of the use of innovative technology. Its special properties mean that there are no fingerprints on the tap. The surface structure is durable and easy to clean. To remove any dirt, just wipe the tap with a soft cloth. What's more, arranging the interior using a deep black fittings makes the colors surrounding it brighter, fuller and more expressive.

All elements are made of high-quality materials: brass with the best properties and high-quality plastic.

The universal construction of the BOX allows you to replace the classic mixer tap with a thermostatic one at any time and vice versa. In the future, you can easily change the arrangement by replacing external elements.

You can easily match bathroom faucets from the same series and complementary products to the external components of the BOX - rosettes and levers.

Hiacynt is an original collection designed with attention to detail. The author of the series, Małgorzata Płoskońska, managed to combine modern design with a hint of timelessness. Hiacynt mixers are like elegant and subtle jewelry for the home, whose shapes will add splendor to bathroom interiors. The series is characterized by a dynamic form - soaring arches balanced with straight planes.

You gain access to the internal mechanism of Box, even after the installation is complete. The lockable casing protects the mixer mechanism during construction works.
