

Concealed shower set, with mixer BOX Hiacynt

Manufacturer	
Weight	7.35 kg
Product Code	BXYZAQHM
EAN	5908212097137
SKU	001895
IBB ID	12986

Product specification

Manufacturer	DEANTE	Unit	pcs
EAN	5908212097137	Additional characteristics	cool-out
Frame height adjustment [mm]	200	Aerator size	M28
		Aerator type	coin-slot
Ceramic cartridge size	35 mm	Adjustment range from [mm]	700
Connection thread	m8	Finish	bianco
Flow class [l/min]	z - 4-9 l/min	Material	304 steel. brass
Installation method	flush-mounted	Spout type	still
Connection diameter	50	Connection type	for hose with hand shower holder
Shape	square	Thickness [mm]	55

The white, matte surface of Deante Bianco fittings is the result of the use of innovative technology. Fingerprints do not remain on a subtle, matte finish, so it is easy to keep clean. To remove any sediments just wipe the tap coating with a soft cloth. A bright, elegant fittings in a shade of timeless, classic white will be perfect in Scandinavian or shabby chic arrangements.

The main advantages of concealed mounting are aesthetic appearance, ease of keeping the bathroom clean and hiding installation components, which are also not exposed to mechanical damage. Solutions of this type will also work in small bathrooms, where every centimeter counts. When installing a concealed system, only decorative wall-mounted elements remain visible, and the bathroom is functional, effective and fits in a fashionable minimalist style.

Anti-Twist is a system that prevents the end of the shower hose from twisting during its use, which significantly affects the comfort of showering. Forget about the need to constantly undo it and losing time. What's more, the Anti-Twist system increases the durability and reliability of the product.

You gain access to the internal mechanism of Box, even after the installation is complete. The lockable casing protects the mixer mechanism during construction works.

All elements are made of high-quality materials: brass with the best properties and high-quality plastic.

The universal construction of the BOX allows you to replace the classic mixer tap with a thermostatic one at any time and vice versa. In the future, you can easily change the arrangement by replacing external elements.

You can easily match bathroom faucets from the same series and complementary products to the external components of the BOX - rosettes and levers.

Hiacynt is an original collection designed with attention to detail. The author of the series, Małgorzata Płoskońska, managed to combine modern design with a hint of timelessness. Hiacynt mixers are like elegant and subtle jewelry for the home, whose shapes will add splendor to bathroom interiors. The series is characterized by a dynamic form - soaring arches balanced with straight planes.

The use of dedicated agents means that the surfaces do not deteriorate and remain smooth for for a long time, facilitating daily cleaning. A specially selected composition removes the most common dirt extremely effectively. On the other hand, the preparations are mild for a given type of surface (metal, granite, ceramics and others), without entering into chemical reactions with them. The preparations are biodegradable and thus harmless for the environment. With Deante cleaning products, keeping things in order will be extremely easy!
