

## Ceramic washbasin, wall-mounted, for people with reduced mobility - with overflow Vital

Manufacturer	
Weight	19.25 kg
Product Code	CDV_6U6W
EAN	5908212042953
SKU	001940

### Product specification

Manufacturer	DEANTE	Unit	pcs
EAN	5908212042953	Additional characteristics	cool-out
Frame height adjustment [mm]	200	Aerator size	M28
		Aerator type	coin-slot
Ceramic cartridge size	35 mm	Adjustment range from [mm]	700
Connection thread	m8	Flow class [l/min]	z - 4-9 l/min
Material	ceramic	Depth [mm]	150
Installation method	wall	Height [mm]	200
Connection diameter	50		

Ceramic products are characterized by special hardness and endurance. They have high color durability and do not absorb smells. The surface of ceramic products does not discolor and looks as new even after long use.

The antibacterial coating prevents the development of microorganisms and promotes hygiene. Thanks to this, we can avoid many infections. The antibacterial coating is also an ally in everyday cleaning.

The use of dedicated agents means that the surfaces do not deteriorate and remain smooth for long, facilitating another cleaning. A specially selected composition removes the most common dirt extremely effectively. On the other hand, the preparations are mild for a given type of surface (metal, granite, ceramics and others), without entering into chemical reactions with them. The preparations are biodegradable and thus safe for the environment. With Deante cleaning products, keeping things in order will be very easy!
