

## Shower wall / walk-in, Kerria Plus system, 80 cm

### Kerria Plus

Manufacturer	
Weight	26.55 kg
Product Code	KTS_N38P
EAN	5908212087527
SKU	002049
IBB ID	12538

### Product specification

Manufacturer	DEANTE	Unit	pcs
EAN	5908212087527	Active cover layer	YES
Additional characteristics	cool-out	Frame height adjustment [mm]	200
Aerator size	M28	Aerator type	coin-slot
Ceramic cartridge size	35 mm	Adjustment range from [mm]	700
Connection thread	m8	Adjustment range up to [mm]	1200
Flow class [l/min]	z - 4-9 l/min	Material	ZnAl
Installation method	to be combined with kts shower doors. to be completed with walk-in kts. possibility of installation with a movable kts panel	Height [mm]	2000
Possibility of installation without a shower tray	Yes	Connection diameter	50
		Glass finish	transparent

## Shower wall / walk-in, Kerria Plus system, 80 cm

Only the best materials, the quality of which has been confirmed by laboratory tests

Possibility to install the cabin without a shower tray, directly on the tiles

Hydrophobic Active-Cover coating that makes it easier for water to run off the glass

Covering of assembly elements

Modern handles with glass protection

TOTALWHITE transparent glass

Profiles leveling the curvature of the walls

The railings give the structure rigidity

Safe and durable tempered glass

Dedicated cleaning agent, safe for cleaned surfaces

Dedicated to Active Cover surfaces

Resistance to impacts, chemicals and stains in accordance with PN-EN 14428+A1:2008 norm, confirmed by tests of the Institute of Ceramics and Building Materials

## Hydrophobic Active-Cover coating that makes it easier for water to run off the glass

The glass in the cabins has been covered with the innovative Active Cover hydrophobic coating, which repels water molecules from the glass surface and thus significantly reduces the formation of scale. The coating is applied during the production of glass, which provides its long durability and reliability.

### Covering of assembly elements

The covers hide the unsightly assembly elements, adding chic and elegance to the cabins.

## TOTALWHITE transparent glass

Crystal clear, safety tempered glass with low iron oxide content. It gives a feeling of refinement and perfectly exposes the fittings inside the cabin.

## Profiles leveling the curvature of the walls

The profile system makes it possible to level the curvature of the walls and helps to adjust the cabin to the place of installation.

## The railings give the structure rigidity

The purpose of the railings is to strengthen and stabilize the construction of shower cabins. They are elegantly finished and easy to keep clean.

## Safe and durable tempered glass

Tempered glass has a harder surface and is more resistant to scratches, impacts and sudden temperature changes - in accordance with the European standard PN-EN. In addition, it is safe glass, {which is certified}by the Certificate from the Institute of Glass and Ceramics.

## Dedicated cleaning agent, safe for cleaned surfaces

The use of dedicated agents means that the surfaces do not deteriorate and remain smooth for long, facilitating daily cleaning. A specially selected composition removes the most common dirt extremely effectively. On the other hand, the preparations are delicate for a given type of surface (metal, granite, ceramics and others), without entering into chemical reactions with them. The preparations are biodegradable and thus safe for the environment. With Deante cleaning products, keeping things in order will be extremely easy!
