## Safe and durable tempered glass

Tempered glass has a harder surface and is more resistant to scratches, impacts and sudden temperature changes - in accordance with the European standard PN-EN. In addition, it is safe glass, {which is certified}by the Certificate from the Institute of Glass and Ceramics.

### Covering of assembly elements

The covers hide the unsightly assembly elements, adding elegance to the cabins.

## Dedicated cleaning agent, safe for cleaned surfaces

The use of dedicated agents means that the surfaces do not deteriorate and remain smooth for long, facilitating another cleaning. A specially selected composition removes the most common dirt extremely effectively. On the other hand, the preparations are delicate for a given type of surface (metal, granite, ceramics and others), without entering into chemical reactions with them. The preparations are biodegradable and thus safe for the environment. With Deante cleaning products, keeping things in order will be very easy!

## Profiles leveling the curvature of the walls

The profile system makes it possible to level the curvature of the walls and helps to adjust the cabin to the place of installation.
