

Shower column, with bathtub mixer, thermostatic - movable spout Jasmin

Manufacturer	
Weight	5.47 kg
Product Code	NAC_01GT
EAN	5908212095119
SKU	002092
IBB ID	12884

Product specification

Manufacturer	DEANTE	Unit	pcs
EAN	5908212095119	Additional characteristics	adjustable angle of the shower head
Frame height adjustment [mm]	200	Aerator size	M28
		Aerator type	coin-slot
Ceramic cartridge size	35 mm	Adjustment range from [mm]	700
Connection thread	m8	Flow class [l/min]	z - 7.2-11.9 l/min
Material	304 steel. brass	Diameter [mm]	250
Connection diameter	50	Shape	round
High adjust	YES	Thickness [mm]	55

Shower column, with bathtub mixer, thermostatic - movable spout

Steel bar

Only the best materials, the quality of which has been confirmed by laboratory tests

The mixer is equipped with non-return valves so that the mixed water does not flow back into the installation

Z flow class (4-9 l/min) allowing for water consumption reduction

Thermostatic cartridge for precise water temperature setting

The hand shower with Anti-calc system facilitates the removal of limescale

Dedicated cleaning agent, safe for cleaned surfaces

The mixer body is made of the highest quality brass

The mixer is equipped with non-return valves so that the mixed water does not flow back into the installation

Backflow valves guarantee the correct operation of the fittings, and in thermostatic taps they also prevent water mixing in the pipes.

Z flow class (4-9 l/min) allowing for water consumption reduction

The flow class with means that within a minute the tap flows between 4 and 9 liters of water. The stream is also comfortable to use, delicate and soft. This solution is ideal wherever you pay attention to ecological and economic responsibility - which also means your home!

Thermostatic cartridge for precise water temperature setting

The thermostatic mixer ensures an easy and precise setting of a constant, pleasant water temperature. Using it is extremely simple. Just set the knob to the desired water temperature. A special lock protects against accidental setting of a temperature higher than a comfortable 38°C and, as a consequence, protects against burns. This solution will work especially where the youngest or seniors use the spray. It is therefore comfortable and safe.

Dedicated cleaning agent, safe for cleaned surfaces

The use of dedicated agents means that the surfaces do not deteriorate and remain smooth for for a long time, facilitating daily cleaning. A specially selected composition removes the most common dirt extremely effectively. On the other hand, the preparations are mild for a given type of surface (metal, granite, ceramics and others), without entering into chemical reactions with them. The preparations are biodegradable and thus harmless for the environment. With Deante cleaning products, keeping things in order will be extremely easy!
