

Shower column, with shower mixer, thermostatic

Jasmin

Manufacturer	
Weight	4.80 kg
Product Code	NAC_N4GT
EAN	5908212097953
SKU	002154
IBB ID	11859

Product specification

Manufacturer	DEANTE	Unit	pcs
EAN	5908212097953	Additional characteristics	adjustable angle of the shower head
Frame height adjustment [mm]	200	Aerator size	M28
		Aerator type	coin-slot
Ceramic cartridge size	35 mm	Adjustment range from [mm]	700
Connection thread	m8	Flow class [l/min]	z - 7.2-11.9 l/min
Material	304 steel	Diameter [mm]	250
Connection diameter	50	Shape	round
High adjust	YES	Thickness [mm]	55

Anti-Twist is a system that prevents the end of the shower hose from twisting during its use, which significantly affects the comfort of showering. Forget about the need to constantly undo it and losing time. What's more, the Anti-Twist system increases the durability and reliability of the product.

The black, matte surface of Deante Nero fittings is the result of the use of innovative technology. Its special properties mean that there are no fingerprints on the tap. The surface structure is durable and easy to clean. To remove any dirt, just wipe the tap with a soft cloth. What's more, arranging the interior using a deep black fittings makes the colors surrounding it brighter, fuller and more expressive.

Backflow valves guarantee the correct operation of the fittings, and in thermostatic taps they also prevent water mixing in the pipes.

The flow class with means that within a minute the tap flows between 4 and 9 liters of water. The stream is also comfortable to use, delicate and soft. This solution is ideal wherever you pay attention to ecological and economic responsibility - which also means your home!

The thermostatic mixer ensures an easy and precise setting of a constant, pleasant water temperature. Using it is extremely simple. Just set the knob to the desired water temperature. A special lock protects against accidental setting of a temperature higher than a comfortable 38°C and, as a consequence, protects against burns. This solution will work especially where the youngest or seniors use the spray. It is therefore comfortable and safe.

The ultra flat steel shower head provides a modern, glamorous look. Solid steel is resistant to moisture and corrosion, which ensures high quality and reliability of the product. Movable joint (allows for adjustment) gives you the ability to adjust the inclination of the rain shower, thanks to which you can adjust the setting of the head to your needs. As a result, you can enjoy a pleasant, relaxing shower for years to come.

The innovative Anti-Calc system extends the life of the product, guarantees reliability of operation and significantly facilitates cleaning. Limescale deposits accumulating at a water outlet is a completely normal thing, the result of which is decreased aesthetics after some time. To restore the original appearance, you usually need persistent scrubbing and special detergents. Thanks to Anti-Calc silicone nozzles, you can say goodbye to tedious cleaning. Limescale is very easy to remove during a daily bath or shower. Just wipe gently with a sponge or simply with your fingers, and the handset will look as new. Individual nozzles are replaceable, and in the set you will always find a few spare pieces. We recommend systematic removal of sediment from the nozzles.

The use of dedicated agents means that the surfaces do not deteriorate and remain smooth for for a long time, facilitating daily cleaning. A specially selected composition removes the most common dirt extremely effectively. On the other hand, the preparations are mild for a given type of surface (metal, granite, ceramics and others), without entering into chemical reactions with them. The preparations are biodegradable and thus harmless for the environment. With Deante cleaning products, keeping things in order will be extremely easy!

The rain shower has an adjustable height of the upper shower head, which allows it to be adjusted to the user's height. This range allows you to optimally set the height of the rain shower for all household members.
