The use of dedicated agents means that the surfaces do not deteriorate and remain smooth for long, facilitating another cleaning. A specially selected composition removes the most common dirt extremely effectively. On the other hand, the preparations are delicate for a given type of surface (metal, granite, ceramics and others), without entering into chemical reactions with them. The preparations are biodegradable and thus safe for the environment. With Deante cleaning products, keeping things in order will be very easy!

In the Alpinia series, the attention is drawn to the shapes with soft lines and the rounded body. The rounded shape makes the water flow freely from the perfectly smooth surface, and the products are easier to clean. Their simple, economical form will appeal to supporters of modern interiors, who appreciate functionality and refined details. Thanks to its small dimensions, Alpinia is an ideal solution for small rooms.

The black, matte surface of Deante Nero fittings is the result of the use of innovative technology. Its special properties mean that there are no fingerprints on the tap. The surface structure is durable and easy to clean. To remove any dirt, just wipe the tap with a soft cloth. What's more, arranging the interior using a deep black fittings makes the colors surrounding it brighter, fuller and more expressive.
