Flow class [l/min]	z - 4-9 l/min	Material	ZnAl
Plug type	click-clack	Connection diameter	50
Product designation	bath	Shape	round
Drain diameter	1 1/2"	Easy clean	tak
Color of external elements	chrome	Type	with overflow

The Click-Clack plug is a convenient and very elegant way of closing the drain. Unlike manual plugs with a cable, it is not connected to the tap. To close or open the drain, just press the plug with your finger. Simple? Simple as Click-Clack! When choosing a tap with a click-clack plug, remember to pay attention to whether you have a sink with or without an overflow and whether the plug you chose is suitable.

The use of dedicated agents means that the surfaces do not deteriorate and remain smooth for for a long time, facilitating daily cleaning. A specially selected composition removes the most common dirt extremely effectively. On the other hand, the preparations are mild for a given type of surface (metal, granite, ceramics and others), without entering into chemical reactions with them. The preparations are biodegradable and thus harmless for the environment. With Deante cleaning products, keeping things in order will be extremely easy!
