The use of dedicated agents means that the surfaces do not deteriorate and remain smooth for for a long time, facilitating daily cleaning. A specially selected composition removes the most common dirt very effectively. On the other hand, the preparations are mild for a given type of surface (metal, granite, ceramics and others), without entering into chemical reactions with them. The preparations are biodegradable and thus harmless for the environment. With Deante cleaning products, keeping things in order will be extremely easy!

Hiacynt is an original collection designed with attention to detail. The author of the series, Małgorzata Płoskońska, managed to combine modern design with a hint of timelessness. Hiacynt mixers are like elegant and subtle jewelry for the home, whose shapes will add splendor to bathroom interiors. The series is characterized by a dynamic form - soaring arches balanced with straight planes.
