

## Steel sink, 1-bowl with drainer - 2" drain Legato

|              |               |
|--------------|---------------|
| Manufacturer |               |
| Weight       | 2.02 kg       |
| Product Code | ZEL_0110      |
| EAN          | 5908212037652 |
| SKU          | 002264        |
| IBB ID       | 12711         |

### Product specification

|                              |               |   |           |
|------------------------------|---------------|---|-----------|
| Manufacturer                 | DEANTE        | Unit  | pcs       |
| EAN                          | 5908212037652 | Additional characteristics                        | cool-out  |
| Frame height adjustment [mm] | 200           | Aerator size                                      | M28       |
|                              |               | Aerator type                                      | coin-slot |
| Ceramic cartridge size       | 35 mm         | Adjustment range from [mm]                        | 700       |
| Connection thread            | m8            | Finish  | steel     |
| Flow class [l/min]           | z - 4-9 l/min | Material  | 304 steel |
| Depth [mm]                   | 145           | Installation method                               | recessed  |
| Plug type                    | manual        | Height [mm]                                       | 145       |
| Connection diameter          | 50            | Cutout in the countertop (recessed) - length [mm] | 740       |
| Cut out width recessed       | 415           | Dishwasher possibility                            | YES       |
| Surface type                 | satin         | Drain diameter                                    | 2"        |
| Number of sink compartments  | 1             | Steel thickness [mm]                              | 0.5       |

The sink of stainless steel is resistant to temperatures up to 250 degrees Celsius, thermal shock and impacts to thermal shock and high temperatures up to 250 degrees Celsius and impact. Stainless steel intended for the production of sinks contains 18% chrome, which responsible high chemical resistance and 10% nickel, which at the same time flexibility. This composition results in a beautiful, elegant and constant color. Stainless steel is easy to clean, repels bacteria from the surface. The antiseptic coating guarantees a high level of hygiene and is easy to clean.

The use of dedicated agents means that the surfaces do not deteriorate and remain smooth for for a long time, facilitating daily cleaning. A specially selected composition removes the most common dirt very effectively. On the other hand, the preparations are mild for a given type of surface (metal, granite, ceramics and others), without entering into chemical reactions with them. The preparations are biodegradable and thus

harmless for the environment. With Deante cleaning products, keeping things in order will be extremely easy!

In order for the sink to fully meet your expectations, during installation you can decide on which side to put the drainer. If you want to arrange a functional kitchen, the possibility to adapt the sink to individual preferences is very important.
