

## Steel sink with tap, 1-bowl with drainer Doppio

Manufacturer	
Weight	4.65 kg
Product Code	ZENB0113
EAN	5908212074831
SKU	002271
IBB ID	12718

### Product specification

Manufacturer	DEANTE	Unit	pcs
EAN	5908212074831	Additional characteristics	tam included
Frame height adjustment [mm]	200	Aerator size	M28
		Aerator type	coin-slot
Ceramic cartridge size	35 mm	Adjustment range from [mm]	700
Connection thread	m8	Finish	chrome
Flow class [l/min]	z - 4-9 l/min	Antibacterial	YES
Material	steel 211	Depth [mm]	160
Installation method	recessed	Plug type	manual
Height [mm]	160	Connection diameter	50
Cutout in the countertop (recessed) - length [mm]	760	Cut out width recessed	410
		Dishwasher possibility	YES
Surface type	satin. brushed	Drain diameter	3.5'
Number of sink compartments	1		

The sink of stainless steel is resistant to impact, high temperatures up to 250 degrees Celsius and thermal shock. Stainless steel intended for the production of sinks contains 18% chrome, which provides high chemical resistance and 10% nickel, which at the same time flexibility. Such a combination results in a beautiful, aesthetic and constant color. Stainless steel is easy to clean, repels germs from the surface. The antiseptic coating guarantees a high level of hygiene and is easy to clean.

The use of dedicated agents means that the surfaces do not deteriorate and remain smooth for for a long time, facilitating another cleaning. A

specially selected composition removes the most common dirt very effectively. On the other hand, the preparations are mild for a given type of surface (metal, granite, ceramics and others), without entering into chemical reactions with them. The preparations are biodegradable and thus harmless for the environment. With Deante cleaning products, keeping things in order will be very easy!

In order for the sink to fully meet your expectations, during installation you can decide on which side to put the drainer. If you want to arrange a functional kitchen, the possibility to adapt the sink to individual preferences is very important.

The tap is equipped with an aerator, thanks to which the water stream is perfectly aerated and soft. This solution improves the comfort of use, while limiting water consumption, which translates into lower utility bills. You are also contributing to taking care of our planet.
