

## Steel sink, 1.5-bowl Xylo

Manufacturer	
Weight	2.08 kg
Product Code	ZEX_3503
EAN	5908212043165
SKU	002297
IBB ID	12970

### Product specification

Manufacturer	DEANTE	Unit	pcs
EAN	5908212043165	Additional characteristics	cool-out
Frame height adjustment [mm]	200	Aerator size	M28
		Aerator type	coin-slot
Ceramic cartridge size	35 mm	Adjustment range from [mm]	700
Connection thread	m8	Finish	steel
Flow class [l/min]	z - 4-9 l/min	Material	304 steel
Depth [mm]	150	Installation method	recessed
Plug type	manual	Height [mm]	150
Connection diameter	50	Cutout in the countertop (recessed) - length [mm]	600
Cut out width recessed	420	Dishwasher possibility	YES
Surface type	decor	Drain diameter	3.5"
Recessed depth [mm]	110	Number of sink compartments	1.5
Steel thickness [mm]	0.7		

The sink made of steel is resistant to temperatures up to 250 degrees Celsius, thermal shock and impacts to thermal shock and high temperatures up to 250 degrees Celsius and impact. Stainless steel used for the production of sinks consists of 18% chrome, which provides high chemical strength and 10% nickel, which additionally flexibility. This composition results in a pretty, elegant and durable color. Stainless steel is simple to clean, repels germs from the surface. The antiseptic coating guarantees a high level of hygiene and is easy to clean.

The small bowl is an innovative solution for small kitchens. It does not require additional space, and significantly improves the convenience of using a wet part of the countertop. It works great for washing fruit and vegetables, as well as cutlery. It also has the option of connecting a grinder, without wasting space under the main bowl. But it's not over yet! It works very well when you have to wash the fragile porcelain separately so as not to break it. We also do not advise you to put freshly sharpened knives in a sink with other dishes. Moreover, a small bowl is the most convenient place to defrost foodstuffs.

The use of dedicated agents means that the surfaces do not deteriorate and remain smooth for long, facilitating daily cleaning. A specially selected composition removes the most common dirt extremely effectively. On the other hand, the preparations are delicate for a given type of surface (metal, granite, ceramics and others), without entering into chemical reactions with them. The preparations are biodegradable and thus safe for the environment. With Deante cleaning products, keeping things in order will be extremely easy!
