

## Steel sink, 1-bowl Olfato

|              |               |
|--------------|---------------|
| Manufacturer |               |
| Weight       | 6.60 kg       |
| Product Code | ZPO_010B      |
| EAN          | 5907650873792 |
| SKU          | 002339        |
| IBB ID       | 13155         |

### Product specification

|  |               |   |  |
|--|---------------|---|--|
| Manufacturer                                       | DEANTE        | Unit  | pcs  |
| EAN  | 5907650873792 | Additional characteristics                        | drain cover included                             |
| Frame height adjustment [mm]                       | 200           | Aerator size                                      | M28  |
|  |               | Aerator type                                      | coin-slot  |
| Ceramic cartridge size                             | 35 mm         | Adjustment range from [mm]                        | 700  |
| Connection thread                                  | m8            | Finish  | steel  |
| Flow class [l/min]                                 | z - 4-9 l/min | Material  | 304 steel  |
| Depth [mm]   | 200           | Installation method                               | recessed flush with the countertop, undercounter |
| Plug type  | manual        | Height [mm]                                       | 200  |
| Connection diameter                                | 50            | Cutout in the countertop (recessed) - length [mm] | 530  |
| Cutout in the countertop (suspended) - length [mm] | 500           | Cut out width recessed                            | 485  |
|  |               | Cut out width suspended                           | 400  |
| Surface type                                       | sat. brushed  | Drain diameter                                    | 3.5"   |
| Number of sink compartments                        | 1             | Steel thickness [mm]                              | 1  |

The sink made of steel is resistant to temperatures up to 250 degrees Celsius, thermal shock and impacts to thermal shock and high temperatures up to 250 degrees Celsius and impact. Stainless steel used for the production of sinks contains 18% chrome, which provides high chemical strength and 10% nickel, which additionally flexibility. Such a combination results in a beautiful, aesthetic and constant color. Stainless steel is easy to clean, repels germs from the surface. The antiseptic coating guarantees a high level of hygiene and is easy to clean.

Modern sinks are part of the fashion of using the kitchen space to the maximum. With the same dimensions, they allow you to fit more in their interior. Cooking enthusiasts are certainly pleased by the fact that their very deep and roomy bowls will without effort allow to wash not only large pots, but even sheets removed from the oven or shelves from the fridge! More space makes it easier to rotate the dishes and is useful for less standard applications.

The sink was equipped with ingenious "Space Saver" siphon. If you've been|annoyed|annoyed by} pipes and elbows taking up most of the space in your cabinet, this is the solution for you. Special and telescopic design allows you to adjust shape of the siphon to your needs. Thanks to this, it is easy to find much more space in the cabinet for example for homemade preserves or bins for waste segregation. It is also possible to connect a washing machine or dishwasher to the siphon. And most importantly - you get the siphon in set!

The use of dedicated agents means that the surfaces do not deteriorate and remain smooth for long, facilitating daily cleaning. A specially selected composition removes the most common dirt extremely effectively. On the other hand, the preparations are mild for a given type of surface (metal, granite, ceramics and others), without entering into chemical reactions with them. The preparations are biodegradable and thus safe for the environment. With Deante cleaning products, keeping things in order will be very easy!
