

Granite sink, 2-bowl Zorba

Manufacturer	
Weight	19.30 kg
Product Code	ZQZ_N203
EAN	5908212096598
SKU	002493
IBB ID	12456

Product specification

Manufacturer	DEANTE	Unit	pcs
EAN	5908212096598	Additional characteristics	cool-out
Frame height adjustment [mm]	200	Aerator size	M28
		Aerator type	coin-slot
Ceramic cartridge size	35 mm	Adjustment range from [mm]	700
Connection thread	m8	Finish	steel
Flow class [l/min]	z - 4-9 l/min	Material	granite
Depth [mm]	165	Installation method	recessed
Plug type	automatic	Height [mm]	180
Connection diameter	50	Cutout in the countertop (recessed) - length [mm]	760
Cut out width recessed	415	Dishwasher possibility	YES
Surface type	matt	Drain diameter	3.5"
Recessed depth [mm]	165	Number of sink compartments	2

Granite composite is a combination of quartz sand and resins in ideal proportions. Thanks to this our sinks are resistant not only to impact, but also to high temperature (250°C), spot color change and thermal shock - in accordance with the European standard PN-EN 13310 They do not absorb odors and have hydrophobic properties that repel water molecules. Granite is elegant and timeless, and thanks to the richness of colors fits every kitchen - futuristic and traditional. Deante granite sinks created in Poland, in one of the most modern factories in Europe. Progressive production technology guarantees preservation of the highest standards of workmanship and control quality, which results in not only great appearance of the product, but also its special properties.

The automatic drain plug system allows you to adjust the water outflow with a knob. There is only one discreet controller on top of the sink. An

important advantage of this technology is the fact that one move is enough to immediately unlock the water outflow, without the need to soak your hands.

Hydrophobicity is one of the natural properties of granite, very useful in the kitchen. The surface of the sink repels particles of water, what the drops without flow taking dirt particles with them. All of this makes keeping clean much easier and no requires scrubbing or use of specialized chemicals.

The use of dedicated agents means that the surfaces do not deteriorate and remain smooth for for a long time, facilitating another cleaning. A specially selected composition removes the most common dirt extremely effectively. On the other hand, the preparations are mild for a given type of surface (metal, granite, ceramics and others), without entering into chemical reactions with them. The preparations are biodegradable and thus harmless for the environment. With Deante cleaning products, keeping things in order will be very easy!

The sink is equipped with innovative "Space Saver" siphon. If you've been|annoyed|annoyed by} pipes and elbows taking up most of the space in your cabinet, this is the solution for your kitchen. Telescopic and special design allows you to adjust shape of the siphon to your needs. Thanks to this, it is easy to find much more space that can be used for homemade preserves or bins for waste segregation. It is also possible to connect a washing machine or dishwasher to the siphon. And most importantly - you get the siphon in kit!
