

Granite sink with tap, 1-bowl Zorba

Manufacturer	
Weight	12.44 kg
Product Code	ZQZA7103
EAN	5908212058763
SKU	002509
IBB ID	12556

Product specification

Manufacturer	DEANTE	Unit	pcs
EAN	5908212058763	Additional characteristics	cool-out
Frame height adjustment [mm]	200	Aerator size	M28
		Aerator type	coin-slot
Ceramic cartridge size	35 mm	Adjustment range from [mm]	700
Connection thread	m8	Finish	sand
Flow class [l/min]	z - 4-9 l/min	Material	granite
Depth [mm]	170	Installation method	recessed
Plug type	automatic	Height [mm]	184
Connection diameter	50	Cutout in the countertop (recessed) - length [mm]	420
Cut out width recessed	420	Dishwasher possibility	YES
Surface type	matt	Drain diameter	3.5"
Number of sink compartments	1		

Granite composite is a combination of quartz sand and resins in ideal proportions. This is the reason why our sinks are resistant not only to impact, but also to high temperature (250°C), discoloration and thermal shock - in accordance with the European standard PN-EN 13310 They do not absorb odors and have hydrophobic properties that repel water molecules. Granite is chic and always fashionable, and thanks to the a wide range of colors fits every kitchen - futuristic and traditional. Deante granite sinks are produced in Poland, in one of the most modern factories in Europe. Progressive production technology guarantees preservation of the highest standards of workmanship and audit quality, which results in not only beautiful appearance of the product, but also its special properties.

The automatic drain plug system allows you to adjust the water outflow with a knob. There is only one discreet controller on top of the sink. An important advantage of this technology is the fact that one move is enough to immediately unlock the water outflow, without the need to soak

your hands.

Hydrophobicity is one of the natural properties of granite, very expected in the kitchen. The surface of the sink repels particles of water, what the drops freely flow taking dirt particles with them. All of this makes sink cleaning much simpler and no requires scrubbing or use of specialized chemicals.

The use of dedicated agents means that the surfaces do not deteriorate and remain smooth for for a long time, facilitating another cleaning. A specially selected composition removes the most common dirt extremely effectively. On the other hand, the preparations are delicate for a given type of surface (metal, granite, ceramics and others), without entering into chemical reactions with them. The preparations are biodegradable and thus harmless for the environment. With Deante cleaning products, keeping things in order will be very easy!

The tap is equipped with an aerator, thanks to which the water stream is perfectly aerated and soft. This solution improves the comfort of use, while limiting water consumption, which translates into lower utility bills. You are also contributing to taking care of our planet.

The sink is equipped with modern "Space Saver" siphon. If you've been|annoyed|annoyed by} pipes and elbows taking up all the space in your cabinet, this is the solution for you. Telescopic and special design allows you to adjust shape of the siphon to your needs. Thanks to this, it is simple to find much more spacein the cabinet for example for homemade preserves or bins for waste segregation. It is also possible to connect a washing machine or dishwasher to the siphon. And most importantly - you get the siphon in kit!

The rail hung on the edge of the sink is a clever solution that allows to organize the space for washing dishes. Easy assembly and disassembly of the product will make it easier to keep clean the sink. Available in 3 finishes: brushed steel, bianco and nero.

A sponge hung on a hook that does not come into contact with other items is greater hygiene of everyday kitchen work and saving valuable space on the kitchen counter or sink. Available in three finishes: brushed steel, bianco and nero.
