

Granite sink with tap, 1-bowl with drainer Zorba

Manufacturer	
Weight	15.73 kg
Product Code	ZQZBS113
EAN	5908212074923
SKU	002513
IBB ID	12659

Product specification

Manufacturer	DEANTE	Unit	pcs
EAN	5908212074923	Additional characteristics	cool-out
Frame height adjustment [mm]	200	Aerator size	M28
		Aerator type	coin-slot
Ceramic cartridge size	35 mm	Adjustment range from [mm]	700
Connection thread	m8	Finish	steel
Flow class [l/min]	z - 4-9 l/min	Antibacterial	YES
Material	granite	Depth [mm]	150
Installation method	recessed	Plug type	automatic
Height [mm]	160	Connection diameter	50
Cutout in the countertop (recessed) - length [mm]	740	Cut out width recessed	420
		Surface type	matt
Drain diameter	3.5"	Number of sink compartments	1

Granite composite is a combination of quartz sand and resins in ideal proportions. This is the reason why our sinks are resistant not only to impact, but also to high temperature (250°C), discoloration and thermal shock - in accordance with the European standard PN-EN 13310 They do not absorb odors and have hydrophobic properties that repel water molecules. Granite is noble and always fashionable, and thanks to the a wide range of colors fits every kitchen - futuristic and traditional . Deante granite sinks are produced in Poland, in one of the most modern factories in Europe. Progressive production technology guarantees preservation of the highest standards of workmanship and audit quality, which results in not only beautiful appearance of the product, but also its special properties.

The automatic drain plug system allows you to adjust the water outflow with a knob. There is only one discreet controller on top of the sink. An important advantage of this technology is the fact that one move is enough to immediately unlock the water outflow, without the need to soak your hands.

Hydrophobicity is one of the natural properties of granite, very desired in the kitchen. The surface of the sink repels particles of water, what the drops difficulty flow taking dirt particles with them. All of this makes sink cleaning much simpler and no requires scrubbing or use of specialized chemicals.

The antiseptic surface created by Deante was created using advanced nanopartite technology using the highest purity silver ions. The solution of this metal is added at the production stage to the mass from which sinks are formed later. As a result, it is evenly mixed throughout the product, allowing to achieve durability and efficiency that significantly exceeds the parameters of using only the top coating.

The use of dedicated agents means that the surfaces do not deteriorate and remain smooth for for a long time, facilitating another cleaning. A specially selected composition removes the most common dirt extremely effectively. On the other hand, the preparations are delicate for a given type of surface (metal, granite, ceramics and others), without entering into chemical reactions with them. The preparations are biodegradable and thus harmless for the environment. With Deante cleaning products, keeping things in order will be very easy!

The tap is equipped with an aerator, thanks to which the water stream is perfectly aerated and soft. This solution improves the comfort of use, while limiting water consumption, which translates into lower utility bills. You are also contributing to taking care of our planet.

The sink is equipped with ingenious "Space Saver" siphon. If you've been|annoyed|annoyed by} pipes and elbows taking up all the space in your cabinet, this is the solution for you. Telescopic and special design allows you to adjust shape of the siphon to your needs. Thanks to this, it is simple to find much more space in the cabinet for example for homemade preserves or bins for waste segregation. It is also possible to connect a washing machine or dishwasher to the siphon. And most importantly - you get the siphon in kit!

Factory done holes in the sink have several advantages. First of all they allow any choice of the side on which we will have the drainer, therefore the sink is "reversible". Assembly is simple and relieves you of the necessity troublesome drilling holes by yourself. washer or pop-up plug| pop-up plug or dishwashing liquid dispenser}.
