

Granite sink with tap, 1-bowl Solis

Manufacturer	
Weight	11.41 kg
Product Code	ZRSBS803
EAN	5908212074916
SKU	002529
IBB ID	12675

Product specification

Manufacturer	DEANTE	Unit	pcs
EAN	5908212074916	Additional characteristics	cool-out
Frame height adjustment [mm]	200	Aerator size	M28
		Aerator type	coin-slot
Ceramic cartridge size	35 mm	Adjustment range from [mm]	700
Connection thread	m8	Finish	grey
Flow class [l/min]	z - 4-9 l/min	Antibacterial	YES
Material	granite	Depth [mm]	180
Diameter [mm]	480	Mixer type	single-lever. mixed
Installation method	recessed	Plug type	manual
Height [mm]	194	Connection diameter	50
Cut out diameter recessed	460	Dishwasher possibility	YES
Surface type	matt	Drain diameter	3.5"
Number of sink compartments	1		

Granite composite is a combination of quartz sand and resins in ideal proportions. Thanks to this our sinks are resistant not only to impact, but also to high temperature (250°C), discoloration and thermal shock - in accordance with the European standard PN-EN 13310 They do not absorb odors and have hydrophobic properties that repel water molecules. Granite is noble and timeless, and thanks to the richness of colors fits every kitchen - futuristic and traditional. Deante granite sinks created in Poland, in one of the most modern factories in Europe. Progressive production technology guarantees preservation of the highest standards of workmanship and control quality, which results in not only great appearance of the product, but also its special properties.

Hydrophobicity is one of the natural properties of granite, very desired in the kitchen. The surface of the sink repels particles of water, what the drops difficulty flow taking dirt particles with them. All of this makes keeping clean much easier and no requires scrubbing or use of specialized chemicals.

The antiseptic surface created by Deante was created using advanced nanopartite technology using the highest purity silver ions. The solution of this metal is added at the production stage to the mass from which sinks are formed later. As a result, it is evenly mixed throughout the product, allowing to achieve durability and efficiency that significantly exceeds the parameters of using only the top coating.

The use of dedicated agents means that the surfaces do not deteriorate and remain smooth for for a long time, facilitating another cleaning. A specially selected composition removes the most common dirt extremely effectively. On the other hand, the preparations are mild for a given type of surface (metal, granite, ceramics and others), without entering into chemical reactions with them. The preparations are biodegradable and thus harmless for the environment. With Deante cleaning products, keeping things in order will be very easy!

The sink is equipped with ingenious "Space Saver" siphon. If you've been|annoyed|annoyed by} pipes and elbows taking up most of the space in your cabinet, this is the solution for your kitchen. Telescopic and special design allows you to adjust shape of the siphon to your needs. Thanks to this, it is easy to find much more spacethat can be used for homemade preserves or bins for waste segregation. It is also possible to connect a washing machine or dishwasher to the siphon. And most importantly - you get the siphon in kit!

The tap is equipped with an aerator, thanks to which the water stream is perfectly aerated and soft. This solution improves the comfort of use, while limiting water consumption, which translates into lower utility bills. You are also contributing to taking care of our planet.
