

Steel sink with tap, 1-bowl with drainer Stock

Manufacturer	
Weight	3.15 kg
Product Code	ZSTA011C
EAN	5908212068786
SKU	002542
IBB ID	12775

Product specification

Manufacturer	DEANTE	Unit	pcs
EAN	5908212068786	Additional characteristics	tam included
Frame height adjustment [mm]	200	Aerator size	M28
		Aerator type	coin-slot
Ceramic cartridge size	35 mm	Adjustment range from [mm]	700
Connection thread	m8	Finish	chrome
Flow class [l/min]	z - 4-9 l/min	Material	steel 211
Depth [mm]	175	Mixer type	single-lever. mixed
Installation method	recessed	Plug type	manual
Height [mm]	175	Connection diameter	50
Cutout in the countertop (recessed) - length [mm]	560	Cut out width recessed	430
		Dishwasher possibility	YES
Surface type	satin. brushed	Drain diameter	3.5'
Number of sink compartments	1		

The sink made of steel is resistant to impact, high temperatures up to 250 degrees Celsius and thermal shock. Stainless steel used for the production of sinks consists of 18% chrome, which responsible high chemical strength and 10% nickel, which additionally flexibility. Such a combination results in a pretty, aesthetic and durable color. Stainless steel is simple to clean, repels bacteria from the surface. The antiseptic coating guarantees a high level of hygiene and is easy to clean.

The use of dedicated agents means that the surfaces do not deteriorate and remain smooth for long, facilitating another cleaning. A specially

selected composition removes the most common dirt extremely effectively. On the other hand, the preparations are delicate for a given type of surface (metal, granite, ceramics and others), without entering into chemical reactions with them. The preparations are biodegradable and thus safe for the environment. With Deante cleaning products, keeping things in order will be very easy!

The tap is equipped with an aerator, thanks to which the water stream is perfectly aerated and soft. This solution improves the comfort of use, while limiting water consumption, which translates into lower utility bills. You are also contributing to taking care of our planet.

In order for the sink to fully meet your expectations, during installation you can decide on which side to put the drainer. If you want to arrange a functional kitchen, the possibility to adapt the sink to individual preferences is very important.
