

Protector, for granite products - 200 ml

Manufacturer	
Weight	0.25 kg
Product Code	ZZZ_0001
EAN	5904941844431
SKU	002572
IBB ID	13001

Product specification

Manufacturer	DEANTE	Unit	pcs
EAN	5904941844431	Additional characteristics	cool-out
Frame height adjustment [mm]	200	Aerator size	M28
		Aerator type	coin-slot
Ceramic cartridge size	35 mm	Adjustment range from [mm]	700
Connection thread	m8	Flow class [l/min]	z - 4-9 l/min
Material	ZnAl	Connection diameter	50
Capacity [l]	0.2		

The use of dedicated agents means that the surfaces do not deteriorate and remain smooth for long, facilitating another cleaning. A specially selected composition removes the most common dirt very effectively. On the other hand, the preparations are delicate for a given type of surface (metal, granite, ceramics and others), without entering into chemical reactions with them. The preparations are biodegradable and thus harmless for the environment. With Deante cleaning products, keeping things in order will be very easy!

Deante cleaning agents are safe for coatings in all finishes. They clean, but at the same time help maintain the washed surfaces so that they always look like new. On darker models, such as nero, titanium or metallic, they do not leave white deposits, enhancing elegant, deep colors. If you have fittings finished in chrome, brass or gold, you will surely appreciate beautifully shiny elements that will be immaculately clean. On the other hand, bianco products will retain a snow-white shade.
