

# Magnetic granite sink, 1-bowl with drainer Magnetic

Manufacturer	
Weight	19.50 kg
Product Code	ZRM_N113
EAN	5907650874737
SKU	002619
IBB ID	11632

## Product specification

Manufacturer	DEANTE	Unit	pcs
EAN	5907650874737	Additional characteristics	cool-out
Frame height adjustment [mm]	200	Aerator size	M28
		Aerator type	coin-slot
Ceramic cartridge size	35 mm	Adjustment range from [mm]	700
Connection thread	m8	Finish	white. nero
Flow class [l/min]	z - 4-9 l/min	Material	granite
Depth [mm]	205	Installation method	recessed
Plug type	automatic	Height [mm]	219
Connection diameter	50	Cutout in the countertop (recessed) - length [mm]	800
Cut out width recessed	480	Dishwasher possibility	YES
Surface type	matt	Drain diameter	3.5"
Number of sink compartments	1		

Granite composite is a combination of quartz sand and resins in measured strictly proportions. Thanks to this our sinks are resistant not only to impact, but also to high temperature (250°C), discoloration and thermal shock - in accordance with the European standard PN-EN 13310 They do not absorb odors and have hydrophobic properties that repel water molecules. Granite is chic and always fashionable, and thanks to the a wide range of colors fits every kitchen - modern and classical . Deante granite sinks created in Poland, in one of the most modern factories in Europe. Advanced production technology guarantees preservation of the highest standards of workmanship and audit quality, which results in not only beautiful appearance of the product, but also its unique properties.

The automatic drain plug system allows you to adjust the water outflow with a knob. There is only one discreet controller on top of the sink. An important advantage of this technology is the fact that one move is enough to immediately unlock the water outflow, without the need to soak

your hands.

Hydrophobicity is one of the natural features of granite, very desired in the kitchen. The surface of the sink repels particles of water, what the drops freely flow taking dirt particles with them. All of this makes sink cleaning much simpler and no requires scrubbing or use of specialized chemicals.

Modern sinks are part of the fashion of using the kitchen space to the maximum. With the same dimensions, they allow you to fit more in their interior. Cooking enthusiasts are certainly pleased by the fact that their very deep and roomy bowls will without effort allow to wash not only large pots, but even sheets removed from the oven or shelves from the fridge! More space makes it easier to rotate the dishes and is useful for less standard applications.

Factory drilled holes in the sink have many advantages. First of all they allow any choice of the side on which we will have the drainer, therefore the sink is "reversible". Assembly is problem-free and relieves you of the necessity troublesome drilling holes on your own. washer or pop-up plug| pop-up plug or dishwashing liquid dispenser}.

Magnetic sinks have magnets on the side invisible to the customer. The magnetic properties of the products are used to attach steel masks and equip sinks with dedicated accessories.

The steel bracket separates a practical shelf that allows water to drain easily and quickly. The shelf is the perfect place for a wet sponge or small herbs in pots. You can also put dishwashing liquid on it.

Optionally, the sink can be equipped with baskets, a railing and a stainless steel hook. By placing a washcloth or kitchen cloth in them and separating them from other items, you increase hygiene when working in the kitchen. Baskets mounted on the side shelf provide a practical space for storing kitchen utensils. Hook and railing can also be purchased separately. Accessories dedicated to sinks are available in 3 finishes to choose from: brushed steel, bianco and nero.

The sink was equipped with ingenious "Space Saver" siphon. If you've been|annoyed|annoyed by} elbows and pipes taking up most of the space in your cabinet, this is the solution for you. Telescopic and special design allows you to adjust shape of the siphon to your needs. Thanks to this, it is simple to find much more space in the cabinet for example for homemade preserves or bins for waste segregation. You can also connect a dishwasher or washing machine to the siphon. And most importantly - you get the siphon in set!

The use of dedicated agents means that the surfaces do not deteriorate and remain smooth for long, facilitating daily cleaning. A specially selected composition removes the most common dirt very effectively. On the other hand, the preparations are mild for a given type of surface (metal, granite, ceramics and others), without entering into chemical reactions with them. The preparations are biodegradable and thus harmless for the environment. With Deante cleaning products, keeping things in order will be very easy!

The waste trap strainer is dyed in mass, which makes it much more resistant to damage. The versatility of matte black color allows you to choose any tap finish.

The rail hung on the edge of the sink is a practical solution that enables to organize the space for washing dishes. Easy assembly and disassembly of the product will make it easier to clean the sink. Available in three finishes: brushed steel, bianco and nero.

A sponge hung on a hook that does not come into contact with other items is increased hygiene of everyday kitchen work and saving valuable space on the kitchen counter or sink. Available in 3 finishes: brushed steel, bianco and nero.
