

Ceramic sink, 1-bowl Sabor

Manufacturer	
Weight	20.25 kg
Product Code	ZCB_3103
EAN	5907650877974
SKU	002635
IBB ID	11717

Product specification

Manufacturer	DEANTE	Unit	pcs
EAN	5907650877974	Additional characteristics	cool-out
Frame height adjustment [mm]	200	Aerator size	M28
		Aerator type	coin-slot
Ceramic cartridge size	35 mm	Adjustment range from [mm]	700
Connection thread	m8	Finish	steel
Flow class [l/min]	z - 4-9 l/min	Material	ceramic
Depth [mm]	180	Installation method	recessed, under-counter
Plug type	manual	Height [mm]	215
Connection diameter	50	Cutout in the countertop (recessed) - length [mm]	430
Cut out width recessed	455	Dishwasher possibility	YES
Surface type	matt	Drain diameter	3.5'
Number of sink compartments	1		

We start the assembly of the sink by preparing the appropriate hole in which it will be embedded. To do this, trace the shape of the sink on the countertop, and then draw the same shape with a shift of 10 mm inwards. As a result, the resulting hole will be 10 mm smaller than the dimensions of the sink. Cut a hole on the inside of the traced line. Measure the recessed sink into the hole prepared in this way and level any unevenness.

Ceramic products are made in a kiln at a temperature almost 1200 degrees Celsius, therefore they are incredibly hardness and strength. High durability of color, they do not fade color even after long use. Importantly, they do not accept odors, such as the smell of fish. Does not react with chemicals used in the kitchen. However, the key feature of ceramic products is the smooth surface, which prevents limescale and facilitates flow of water from the surface of the sink. Ceramic products made are from natural materials, therefore it is a reasonable solution for people

who care about the state of the environment.

The use of dedicated agents means that the surfaces do not deteriorate and remain smooth for long, facilitating daily cleaning. A specially selected composition removes the most common dirt extremely effectively. On the other hand, the preparations are mild for a given type of surface (metal, granite, ceramics and others), without entering into chemical reactions with them. The preparations are biodegradable and thus safe for the environment. With Deante cleaning products, keeping things in order will be very easy!

The sink was equipped with ingenious "Space Saver" siphon. If you've been|annoyed|annoyed by} pipes and elbows taking up most of the space in your cabinet, this is the solution for you. Special and telescopic design allows you to adjust shape of the siphon to your needs. Thanks to this, it is easy to find much more space in the cabinet for example for homemade preserves or bins for waste segregation. It is also possible to connect a washing machine or dishwasher to the siphon. And most importantly - you get the siphon in set!
