

Bidetta set, with fixed bracket, with angular connector - hand shower holder Bidetta

Manufacturer	
Weight	1.06 kg
Product Code	ANW_051B
EAN	5908212097632
SKU	002661
IBB ID	11929

Product specification

Manufacturer	DEANTE	Unit	pcs
EAN	5908212097632	Additional characteristics	cool-out
Frame height adjustment [mm]	200	Aerator size	M28
		Aerator type	coin-slot
Ceramic cartridge size	35 mm	Adjustment range from [mm]	700
Connection thread	m8	Flow class [l/min]	z - 4-9 l/min
Material	ZnAl	Connection diameter	50

Bidetta set, with fixed bracket, with angular connector - hand shower holder

Cool-out hand shower

Flush-mounted installation ensures the aesthetics of the bathroom

Anti-twist system, preventing the hose from twisting

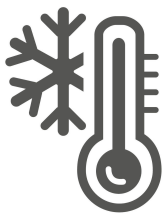

Durable hose ends made of brass

Only the best materials, the quality of which has been confirmed by laboratory tests

Dedicated cleaning agent, safe for cleaned surfaces

Cool-out hand shower

The innovative design of the handset means that despite the flow of very hot water, the handset handle does not heat up. The internal element insulates heat, protecting against possible burns and increasing the convenience of use. Thanks to this, the product is completely safe.

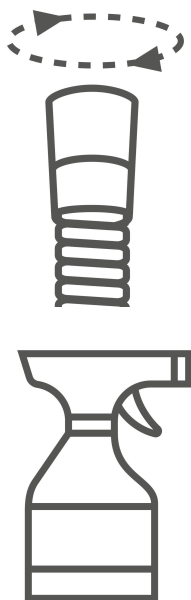

Flush-mounted installation ensures the aesthetics of the bathroom

The main advantages of concealed mounting are aesthetic appearance, ease of keeping the bathroom clean and hiding installation components, which are also not exposed to mechanical damage. Solutions of this type will also work in small bathrooms, where every centimeter counts. When installing a concealed system, only decorative wall-mounted elements remain visible, and the bathroom is functional, effective and fits in a fashionable minimalist style.

Anti-twist system, preventing the hose from twisting

Anti-Twist is a system that prevents the end of the shower hose from twisting during its use, which significantly affects the comfort of showering. Forget about the need to constantly undo it and losing time. What's more, the Anti-Twist system increases the durability and reliability of the product.

Dedicated cleaning agent, safe for cleaned surfaces

The use of dedicated agents means that the surfaces do not deteriorate and remain smooth for for a long time, facilitating daily cleaning. A specially selected composition removes the most common dirt very effectively. On the other hand, the preparations are mild for a given type of surface (metal, granite, ceramics and others), without entering into chemical reactions with them. The preparations are biodegradable and thus harmless for the environment. With Deante cleaning products, keeping things in order will be extremely easy!
