

Washbasin tap, contactless, with temperature control

- 230/6V Hiacynt

Manufacturer	
Weight	2.80 kg
Product Code	BQH_N29V
EAN	5907650875192
SKU	002703
IBB ID	12157

Product specification

Manufacturer	DEANTE	Unit	pcs
EAN	5907650875192	Additional characteristics	cool-out
Acoustic group [dB]	I (x ≤ 20)	Frame height adjustment [mm]	200
Aerator size	m24	Aerator type	ruchomy. płaski
Ceramic cartridge size	35 mm	Adjustment range from [mm]	700
Connection thread	m10. 3/8'	Flow class [l/min]	z - 4-9 l/min
Installation thread	1/2'	Material	brass
Mixer type	sensor	Installation method	standing
Range of tap spout [mm]	112	Spout type	still
Connection diameter	50	Total height of the battery [mm]	141

The sensor tap is primarily characterized by contactless operation. To run it, just bring your hand closer to the sensor. The flow is closed automatically after the hand is moved away. This solution ensures low water consumption, comfort of use and hygiene. When using them, you do not touch the handle, which makes it much easier to keep the product clean.

The tap is equipped with an aerator, thanks to which the water stream is perfectly aerated and soft. This solution improves the comfort of use, while limiting water consumption, which translates into lower utility bills. You are also contributing to taking care of our planet.

The movable aerator allows you to direct the stream of water and aerates it at the same time. This translates into less use of this valuable resource, while maintaining the comfort of using the mixer.

The flow class with means that within a minute the tap flows between 4 and 9 liters of water. The stream is also comfortable to use, delicate and soft. This solution is ideal wherever you pay attention to ecological and economic responsibility - which also means your home!

Backflow valves guarantee the correct operation of the fittings, and in thermostatic taps they also prevent water mixing in the pipes.

The black, matte surface of Deante Nero fittings is the result of the use of innovative technology. Its special properties mean that there are no fingerprints on the tap. The surface structure is durable and easy to clean. To remove any dirt, just wipe the tap with a soft cloth. What's more, arranging the interior using a deep black fittings makes the colors surrounding it brighter, fuller and more expressive.

Hiacynt is an original collection designed with attention to detail. The author of the series, Małgorzata Płoskońska, managed to combine modern design with a hint of timelessness. Hiacynt mixers are like elegant and subtle jewelry for the home, whose shapes will add splendor to bathroom interiors. The series is characterized by a dynamic form - soaring arches balanced with straight planes.
