

Shower set, 1-function, with sliding bar - concealed connector Arnika

Manufacturer	
Weight	2.41 kg
Product Code	NQA_061K
EAN	5907650878810
SKU	002848
IBB ID	13167

Product specification

Manufacturer	DEANTE	Unit	pcs
EAN	5907650878810	Additional characteristics	cool-out
Frame height adjustment [mm]	200	Aerator size	M28
		Aerator type	coin-slot
Ceramic cartridge size	35 mm	Adjustment range from [mm]	700
Connection thread	m8	Flow class [l/min]	a - 12-14.9 l/min
Material	brass. stainless steel	Connection diameter	50

Shower set, 3-function, with sliding bar - concealed connector

Design full of beauty and harmony

The variety of colours gives many arrangement possibilities

Flush-mounted installation ensures the aesthetics of the bathroom

Anti-twist system, preventing the hose from twisting

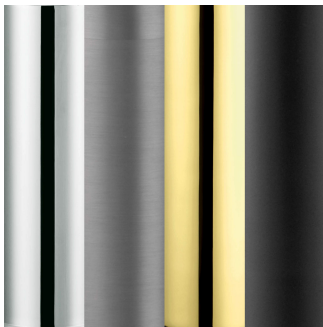

The hand shower with Anti-calc system facilitates the removal of limescale

Dedicated cleaning agent, safe for cleaned surfaces

Only the best materials, the quality of which has been confirmed by laboratory tests

Design full of beauty and harmony

Delicate, minimalist, and above all beautiful and intriguing - this is the Arnika line, inspired by the Danish hygge style. The Arnika series combines functionality and inspiration with gentle shapes found in nature.

The variety of colours gives many arrangement possibilities

This perfect form is available in many finishes: classic chrome, majestic gold, noble black and intriguing deep gray - titanium.

Flush-mounted installation ensures the aesthetics of the bathroom

The main advantages of concealed mounting are aesthetic appearance, ease of keeping the bathroom clean and hiding installation components, which are also not exposed to mechanical damage. Solutions of this type will also work in small bathrooms, where every centimeter counts. When installing a concealed system, only decorative wall-mounted elements remain visible, and the bathroom is functional, effective and fits in a fashionable minimalist style.

Anti-twist system, preventing the hose from twisting

Anti-Twist is a system that prevents the end of the shower hose from twisting during its use, which significantly affects the comfort of showering. Forget about the need to constantly undo it and losing time. What's more, the Anti-Twist system increases the durability and reliability of the product.

Dedicated cleaning agent, safe for cleaned surfaces

The use of dedicated agents means that the surfaces do not deteriorate and remain smooth for long, facilitating daily cleaning. A specially selected composition removes the most common dirt very effectively. On the other hand, the preparations are delicate for a given type of surface (metal, granite, ceramics and others), without entering into chemical reactions with them. The preparations are biodegradable and thus safe for the environment. With Deante cleaning products, keeping things in order will be very easy!
