Anti-twist system, preventing the hose from twisting

3-function hand shower

Innovative, durable and easy to clean Nero coating

Dedicated cleaning agent, safe for cleaned surfaces

Only the best materials, the quality of which has been confirmed by laboratory tests

## Design full of beauty and harmony

Delicate, minimalist, and above all beautiful and intriguing - this is the Arnika line, inspired by the Danish hygge style. The Arnika series combines functionality and inspiration with gentle shapes found in nature.

## The variety of colours gives many arrangement possibilities

This perfect form is available in many finishes: classic chrome, majestic gold, noble black and intriguing deep gray - titanium.

## Flush-mounted installation ensures the aesthetics of the bathroom

The main advantages of concealed mounting are aesthetic appearance, ease of keeping the bathroom clean and hiding installation components, which are also not exposed to mechanical damage. Solutions of this type will also work in small bathrooms, where every centimeter counts. When installing a concealed system, only decorative wall-mounted elements remain visible, and the bathroom is functional, effective and fits in a fashionable minimalist style.

## Anti-twist system, preventing the hose from twisting

Anti-Twist is a system that prevents the end of the shower hose from twisting during its use, which significantly affects the comfort of showering. Forget about the need to constantly undo it and losing time. What's more, the Anti-Twist system increases the durability and reliability of the product.

## 3-function hand shower

Depending on your wishes, you can choose from three types of stream: rain, mixed and hydromassage, which is changed with a discreet and ergonomic switch. Daily use of water will become a special ritual.

## Innovative, durable and easy to clean Nero coating

The black, matte surface of Deante Nero fittings is the result of the use of innovative technology. Its special properties mean that there are no fingerprints on the tap. The surface structure is durable and easy to clean. To remove any dirt, just wipe the tap with a soft cloth. What's more, arranging the interior using a deep black fittings makes the colors surrounding it brighter, fuller and more expressive.

## Dedicated cleaning agent, safe for cleaned surfaces

The use of dedicated agents means that the surfaces do not deteriorate and remain smooth for long, facilitating daily cleaning. A specially selected composition removes the most common dirt very effectively. On the other hand, the preparations are delicate for a given type of surface (metal, granite, ceramics and others), without entering into chemical reactions with them. The preparations are biodegradable and thus harmless for the environment. With Deante cleaning products, keeping things in order will be very easy!
