Toilet paper holder, wall-mounted

Only the best materials, the quality of which has been confirmed by laboratory tests

Modern design

High quality material

Concealed mounting

Shapes for easy cleaning

Dedicated cleaning agent, safe for cleaned surfaces

Modern design

It is a sublime product that will help you keep order in the bathroom, while being a sophisticated decorative element. Silia accessories, despite their minimalist form, are well thought out and functional. All models are stylistically consistent and harmonious, providing the bathroom with an attractive appearance and maximum arrangement possibilities.

High quality material

Accessories are made of high quality brass, making them solid and durable. It is a material resistant to moisture and corrosion. The refined form and an extremely effective finish ensure the durability of the product.

Concealed mounting

Perfectly hidden mounting elements give a mysterious character. A complete installation kit is included.

Shapes for easy cleaning

Perfectly smooth surfaces are very easy to keep clean. Just wipe them with a soft, damp cloth. By using the appropriate preparations from the Deante offer, you can be sure that the accessories will decorate the bathroom for many years.

Dedicated cleaning agent, safe for cleaned surfaces

The use of dedicated agents means that the surfaces do not deteriorate and remain smooth for long, facilitating daily cleaning. A specially selected composition removes the most common dirt extremely effectively. On the other hand, the preparations are mild for a given type of surface (metal, granite, ceramics and others), without entering into chemical reactions with them. The preparations are biodegradable and thus safe for the environment. With Deante cleaning products, keeping things in order will be very easy!
