

# Granite sink with tap, 1-bowl with drainer Evora

Manufacturer	
Weight	17.97 kg
Product Code	ZQJJN113
EAN	5907650819493
SKU	003141
IBB ID	11916

## Product specification

Manufacturer	DEANTE	Unit	pcs
EAN	5907650819493	Additional characteristics	cool-out
Frame height adjustment [mm]	200	Aerator size	M28
		Aerator type	coin-slot
Ceramic cartridge size	35 mm	Adjustment range from [mm]	700
Connection thread	m8	Finish	white. nero
Flow class [l/min]	z - 4-9 l/min	Material	granite
Depth [mm]	180	Installation method	recessed
Plug type	automatic	Height [mm]	193
Connection diameter	50	Cutout in the countertop (recessed) - length [mm]	760
Cut out width recessed	420	Dishwasher possibility	YES
Surface type	matt	Drain diameter	3.5"
Number of sink compartments	1		

Granite composite is a combination of quartz sand and resins in ideal proportions. This is the reason why our sinks are resistant not only to impact, but also to high temperature (250°C), discoloration and thermal shock - in accordance with the European standard PN-EN 13310 They do not absorb odors and have hydrophobic properties that repel water molecules. Granite is chic and timeless, and thanks to the richness of colors fits every kitchen - modern and classical. Deante granite sinks are produced in Poland, in one of the most developed factories in Europe. Advanced production technology guarantees preservation of the highest standards of workmanship and audit quality, which results in not only beautiful appearance of the product, but also its special properties.

The automatic drain plug system allows you to adjust the water outflow with a knob. There is only one discreet controller on top of the sink. An important advantage of this technology is the fact that one move is enough to immediately unlock the water outflow, without the need to soak

your hands.

Hydrophobicity is one of the natural features of granite, very desired in the kitchen. The surface of the sink repels particles of water, what the drops freely flow taking dirt particles with them. All of this makes keeping clean much easier and no requires scrubbing or use of specialized chemicals.

Factory drilled holes in the sink have several advantages. First of all they allow any choice of the side on which we will have the drainer, therefore the sink is "reversible". Assembly is problem-free and relieves you of the need troublesome drilling holes on your own. washer or pop-up plug| pop-up plug or dishwashing liquid dispenser}.

The sink was equipped with ingenious "Space Saver" siphon. If you've been|annoyed|annoyed by} pipes and elbows taking up all the space in your cabinet, this is the solution for you. Telescopic and special design allows you to adjust shape of the siphon to your needs. Thanks to this, it is easy to find much more spacethat can be used for homemade preserves or bins for waste segregation. You can also connect a dishwasher or washing machine to the siphon. And most importantly - you get the siphon in set!

The waste trap strainer is dyed in mass, which makes it much more resistant to damage. The versatility of matte black color allows you to choose any tap finish.

The black, matte surface of Deante Nero fittings is the result of the use of innovative technology. Its special properties mean that there are no fingerprints on the tap. The surface structure is durable and easy to clean. To remove any dirt, just wipe the tap with a soft cloth. What's more, arranging the interior using a deep black fittings makes the colors surrounding it brighter, fuller and more expressive.

The use of dedicated agents means that the surfaces do not deteriorate and remain smooth for long, facilitating daily cleaning. A specially selected composition removes the most common dirt extremely effectively. On the other hand, the preparations are delicate for a given type of surface (metal, granite, ceramics and others), without entering into chemical reactions with them. The preparations are biodegradable and thus harmless for the environment. With Deante cleaning products, keeping things in order will be very easy!

The tap is equipped with an aerator, thanks to which the water stream is perfectly aerated and soft. This solution improves the comfort of use, while limiting water consumption, which translates into lower utility bills. You are also contributing to taking care of our planet.
