

# Toilet bowl, with seat, rimless Peonia

Manufacturer	
Weight	31.81 kg
Product Code	CDEDDZPW
EAN	5907650820505
SKU	003190
IBB ID	12256

## Product specification

Manufacturer	DEANTE	Unit	pcs
EAN	5907650820505	Additional characteristics	toalet seat included
Frame height adjustment [mm]	200	Aerator size	M28
		Aerator type	coin-slot
Ceramic cartridge size	35 mm	Adjustment range from [mm]	700
Connection thread	m8	Finish	antracyt. titanium
Flow class [l/min]	z - 4-9 l/min	Antibacterial	YES
Material	duroplast	Chrome-plated hinges	Yes
Height [mm]	355	Connection diameter	50
Quick removal of the board	Yes	Type	hanging
Hidden fixings	YES	Hole spacing	180
Slow-closing toalet desk	Yes		

Ceramic products are characterized by special hardness and endurance. They have high color durability and do not absorb smells. The surface of ceramic products does not discolor and looks as new even after long use.

The antibacterial coating prevents the development of microorganisms and promotes hygiene. Thanks to this, we can avoid many infections. The antibacterial coating is also an ally in everyday cleaning.

Rimless bowls are designed in such a way as to promote easy cleaning, without the need for strong detergents and time-consuming scrubbing. The lack of a wrapped internal edge means that the difficult to remove dirt does not accumulate in the bowl. It is enough to wipe the comfortable, streamlined-shape bowl with a soft cloth and when rinsing the water stream easily flows around on its inner surface.

The set includes a slow-closing seat. Thanks to special cushioning stoppers, the seat goes down slowly and does not hit the bowl. Thus, it prevents damage and eliminates unnecessary noise. A set of a toilet with a seat makes you avoid the need to search for these elements separately and thus save valuable time.

The invisible mounting system makes all mounting elements hidden. This definitely improves the appearance of the entire bathroom. Lack of edges and protruding screws provides additional convenience when cleaning the fittings. This makes hygiene to be easier than ever before. Ceramics has a smooth surface and looks very elegant.

The attestation given by the National Research Institute - the National Institute of Public Health of PZH ensures that the products covered by it meet the highest hygiene requirements. They are safe for both health and the environment.

The use of dedicated agents means that the surfaces do not deteriorate and remain smooth for long, facilitating another cleaning. A specially selected composition removes the most common dirt very effectively. On the other hand, the preparations are mild for a given type of surface (metal, granite, ceramics and others), without entering into chemical reactions with them. The preparations are biodegradable and thus harmless for the environment. With Deante cleaning products, keeping things in order will be very easy!
