

Bathtub spout Silia

Manufacturer	
Weight	0.42 kg
Product Code	NQS_D81K
EAN	5907650818854
SKU	003260
IBB ID	12783

Product specification

Manufacturer	DEANTE	Unit	pcs
EAN	5907650818854	Additional characteristics	cool-out
Frame height adjustment [mm]	200	Aerator size	m28
		Aerator type	coin-slot
Aerator	Yes	Ceramic cartridge size	35 mm
Adjustment range from [mm]	700	Connection thread	m8
Finish	titanium	Flow class [l/min]	z - 4-9 l/min
Material	brass	Spout type	still
Connection diameter	50	Spout length [mm]	226
Thread type	external	Flush mounting	YES

Bathtub spout

Noble form and timeless simplicity

Innovative, durable and easy to clean Titanium coating

Flush-mounted installation ensures the aesthetics of the bathroom

Silicone aerator for easy limescale removal

The offer includes a cleaning agent for fixtures in all colors

Only the best materials, the quality of which has been confirmed by laboratory tests

Noble form and timeless simplicity

Silia mixers are a reinterpretation of one of the most classic models in the history of bathroom taps. The entire series is based on the shape of a pipe bent into arches, thanks to which the products are streamlined and rounded. Thanks to its simplicity and wide range of colors, the whole series is extremely refined. They can be used by fans of minimalist bathrooms as well as those in more expressive styles, such as Gentle Loft, Japandi or Art. Deco.

Innovative, durable and easy to clean Titanium coating

The graphite-steel surface of Deante Titanium fittings is the result of the use of innovative technology. It is a spectacular compromise between gray, dark graphite, black and even a delicate shade of brown - the perfect decoration of any interior arrangement. The surface structure is durable, easy to clean and is not susceptible to fingerprints.

Flush-mounted installation ensures the aesthetics of the bathroom

The main advantages of concealed mounting are aesthetic appearance, ease of keeping the bathroom clean and hiding installation components, which are also not exposed to mechanical damage. Solutions of this type will also work in small bathrooms, where every centimeter counts. When installing a concealed system, only decorative wall-mounted elements remain visible, and the bathroom is functional, effective and fits in a fashionable minimalist style.

Silicone aerator for easy limescale removal

The silicone aerator adds air to the water stream, and at the same time gives the ability to easily remove lime sediment - just wipe its silicone edges with your finger.

The offer includes a cleaning agent for fixtures in all colors

The agent is intended for taps in all finishes. Thanks to its special formula, it does not leave streaks, scratches or matting on the cleaned products. The preparation is perfect for the care of demanding black fittings, preserving its original appearance for many years.
