

Kitchen tap, with pull-out spout Silia

Manufacturer	
Weight	2.14 kg
Product Code	BQS_F73M
EAN	5907650821182
SKU	003283
IBB ID	12948

Product specification

Manufacturer	DEANTE	Unit	pcs
EAN	5907650821182	Series	silia
Additional characteristics	cool-out	Acoustic group [dB]	II (20 < x ≤ 30)
Frame height adjustment [mm]	200	Aerator size	m18.5
		Aerator type	movable
Ceramic cartridge size	25 mm	Adjustment range from [mm]	700
Connection thread	m8	Finish	brushed steel
Flow class [l/min]	z - 4-9 l/min	Installation thread	3/8"
Material	ZnAl	Mixer type	single-lever. mixed
Installation method	standing	Range of tap spout [mm]	233
Spout type	pulled out. rotary	Connection diameter	50
Total height of the battery [mm]	253		

The mixer body is made of the highest quality brass

45 cm connection hoses included

The mixer is equipped with a stream aerator

The mixer with functional pull-out spout

The movable aerator allows you to direct the water stream

Only the best materials, the quality of which has been confirmed by laboratory tests

Z flow class (4-9 l/min) allowing for water consumption reduction

The mixer is equipped with non-return valves so that the mixed water does not flow back into the installation

The offer includes a cleaning agent for fixtures in all colors

Innovative and easy to maintain brushed steel coating

The tap is equipped with an aerator, thanks to which the water stream is perfectly aerated and soft. This solution improves the comfort of use, while limiting water consumption, which translates into lower utility bills. You are also contributing to taking care of our planet.

The tap with a pull-out spout is an extremely practical and convenient solution in every kitchen. Thanks to it, you can easily keep the sink clean, fill high dishes with water, rinse fruit and vegetables and perform a number of small kitchen tasks within the sink. You will forget about the problems with washing large oven sheets or shelves from the fridge, and thus common accidental flooding of the countertop next to it. Now you have full control over the water in the kitchen!

The movable aerator allows you to direct the stream of water and aerates it at the same time. This translates into less use of this valuable resource, while maintaining the comfort of using the mixer.

The flow class with means that within a minute the tap flows between 4 and 9 liters of water. The stream is also comfortable to use, delicate and soft. This solution is ideal wherever you pay attention to ecological and economic responsibility - which also means your home!

Backflow valves guarantee the correct operation of the fittings, and in thermostatic taps they also prevent water mixing in the pipes.
