

Shower wall / walk-in, Kerria Plus system - 40 cm

Kerria Plus

Manufacturer	
Weight	14.45 kg
Product Code	KTS_084P
EAN	5907650821328
SKU	003413
IBB ID	12874

Product specification

Manufacturer	DEANTE	Unit	pcs
EAN	5907650821328	Active cover layer	YES
Additional characteristics	cool-out	Frame height adjustment [mm]	200
Aerator size	M28	Aerator type	coin-slot
Ceramic cartridge size	35 mm	Adjustment range from [mm]	700
Connection thread	m8	Adjustment range up to [mm]	1200
Flow class [l/min]	z - 4-9 l/min	Material	ZnAl
Installation method	to be combined with kts shower doors. to be completed with walk-in kts. possibility of installation with one fixed wall. possibility of installation with a movable kts panel	Height [mm]	2000
		Connection diameter	50
		Glass finish	transparent
		Railing length [mm]	1062
Possibility of installation without a shower tray	Yes		

Tempered glass has a harder surface and is more resistant to scratches, impacts and sudden temperature changes - in accordance with the European standard PN-EN. In addition, it is safe glass, (which is certified) by the Certificate from the Institute of Glass and Ceramics.

The glass in the cabins has been covered with the innovative Active Cover hydrophobic coating, which repels water molecules from the glass surface and thus significantly reduces the formation of scale. The coating is applied at the glass production stage, which guarantees its long durability and reliability.

Crystal clear, safety tempered glass with low iron oxide content. It gives a feeling of refinement and perfectly exposes the fittings inside the cabin.

The covers hide the unsightly assembly elements, adding elegance to the cabins.

The use of dedicated agents means that the surfaces do not deteriorate and remain smooth for long, facilitating another cleaning. A specially selected composition removes the most common dirt extremely effectively. On the other hand, the preparations are mild for a given type of surface (metal, granite, ceramics and others), without entering into chemical reactions with them. The preparations are biodegradable and thus safe for the environment. With Deante cleaning products, keeping things in order will be very easy!

The glass in the cabins has been covered with the innovative Active Cover hydrophobic coating, which repels water molecules from the glass surface and thus significantly reduces the formation of scale. The coating is applied during the production of glass, which provides its long durability and reliability.

The profile system makes it possible to level the curvature of the walls and helps to adjust the cabin to the place of installation.

The purpose of the railings is to strengthen and stabilize the construction of shower cabins. They are elegantly finished and easy to keep clean.
