

Washbasin tap Temisto

Manufacturer	
Weight	0.00 kg
Product Code	BQT_M20M
EAN	5907650826484
SKU	003511
IBB ID	13353

Product specification

Manufacturer	DEANTE	Unit	pcs
EAN	5907650826484	Additional characteristics	cool-out
Acoustic group [dB]	I (x ≤ 20)	Frame height adjustment [mm]	200
Aerator size	m18.5	Aerator type	floating honeycomb
Ceramic cartridge size	25 mm	Adjustment range from [mm]	700
Connection thread	m8	Flow class [l/min]	z - 4-9 l/min
Installation thread	3/8"	Material	stainless steel
Mixer type	single-lever. mixed	Installation method	standing
Range of tap spout [mm]	134	Spout type	rotary
Connection diameter	50	Total height of the battery [mm]	227

Washbasin tap

Design that connects the past with the future

Hand-crafted elements

Innovative and durable brass color coating

45 cm connection hoses included

The mixer is equipped with a stream aerator

The movable aerator allows you to direct the water stream

Z flow class (4-9 l/min) allowing for water consumption reduction

The mounting sleeve facilitates the installation of the mixer

The lever on the side makes it easier to keep the spout clean

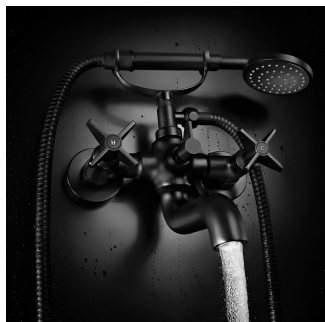

The mixer body is made of the highest quality brass

we recommend buying a universal plug in the color of the mixer

The offer includes a cleaning agent for fixtures in all colors

Design that connects the past with the future

The mixer collection combines style with modern technology. The taps and rain shower in this series refer to the retro climate, attract attention with stylized knobs, and at the same time boast a very modern covering technology.

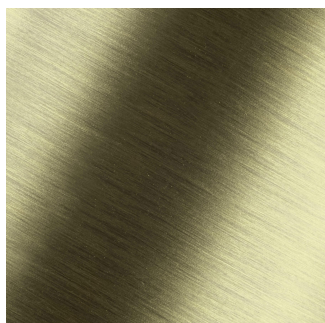

Hand-crafted elements

In the Temisto collection, individual elements are developed by hand, with care and commitment. These mixers are unique, utilitarian works of art.

Innovative and durable brass color coating

The brass, matte-gold surface of Deante fittings is the result of the use of innovative technology. It is a combination of retro style and modernity. The surface structure is durable and easy to clean, because the fingerprints do not remain on the brass coating. The brass gives the room an unusual character and unique appearance.

The mixer is equipped with a stream aerator

The tap is equipped with an aerator, thanks to which the water stream is perfectly aerated and soft. This solution improves the comfort of use, while limiting water consumption, which translates into lower utility bills. You are also contributing to taking care of our planet.

The movable aerator allows you to direct the water stream

The movable aerator allows you to direct the stream of water and aerates it at the same time. This translates into less use of this valuable resource, while maintaining the comfort of using the mixer.

Z flow class (4-9 l/min) allowing for water consumption reduction

The flow class with means that within a minute the tap flows between 4 and 9 liters of water. The stream is also comfortable to use, delicate and soft. This solution is ideal wherever you pay attention to ecological and economic responsibility - which also means your home!

The lever on the side makes it easier to keep the spout clean

The handle located on the side ensures that the tap is kept clean during everyday use. There are fewer stains and lime sediment on the tap. It is also a good solution for low-suspended cabinets, shelves or mirrors.

The offer includes a cleaning agent for fixtures in all colors

The agent is intended for taps in all finishes. Thanks to its special formula, it does not leave streaks, scratches or matting on the cleaned products. The preparation is perfect for the care of demanding black fittings, preserving its original appearance for many years.
